SIX MEN KILLED.

Three More Fatally Injured and Fifteen Seriously Burned

By an Explosion in the Carnegie Steel Works at Braddock--Property, Valued at $30,000, Destroyed.

PITTSBURG, Pa., Aug. 20.—An explosion at furnace "H," of the Carnegie Steel company, at Braddock, at 5 o'clock this morning, killed six men, fatally injured three more, and seriously burned fifteen others. Property valued at $30 000 was destroyed. The names of the killed were:

Steve Havrels, cut in twain, thirty-two years of age, leaves a wife and two children.

Joseph Tuckay, thirty-two years old, burned, leaves a wife and four children.

Joseph Copp, burned, thirty-two years old, single.

John Meka, burned, twenty-five years old, single.

John Pookohovec, burned, twenty-five years old, single.

John Grucha, burned, thirty years old, single.

All were Poles and Huns, except Grucha, who was a German. Nine of the injured were brought to the Mercy hospital, in this city. They are reported to be resting easily.

Of the injured it is now believed that five will die. Their names are:

John Warha, inhaled the flames, married, two children. John Skonda, married. Mike Jura, married. Mike Kahenos, single. Andrew Drobne, single. These men were frightfully burned.

The following were seriously injured but will probably recover: John Wasgasky, John Sebroriay, James Harrison and two unknown men.

A number of others sustained slight burns and cuts by being hit by flying brick but they were able to go to their homes and their names could not be learned.

The explosion was due to a "hang" in furnace H, which suddenly loosened and dropped into the molten metal below, generating an immense quantity of gas so suddenly that it could not escape by the ordinary means and the explosion followed.

The terrible loss of life was due to a peculiar cause. A few minutes before the explosion occurred one of the top fillers dumped a barrow of material into the bell of the furnace, which he had forgotten to raise. This clogged the whole furnace and prevented the gas from escaping A gang of sixteen men, in charge of James Harrison, were sent at once to the top of the furnace to remove the obstruction. All were closely crowded around the bell of the furnace removing the material which had been dumped on it, when there was a terrific explosion, and men, barrows, tools and material were hurled in all directions. Flames, deadly gases and smoke belched from the furnace top and the gang of men fell as if shot.

Only one man was killed instantly. He was blown from the furnace a long distance to the metal roadway to the elevator shaft, down which he fell, and striking on a car, was cut in two, one half of his body falling on one side of the car and the other half on the other side.

The explosion was heard all over Braddock and crowds at once rushed to the scene, but none expected to witness such horrors. A relief crew was quickly organized, which went to the top of the furnace, where lay fifteen men, bleeding, torn, burned and dying. The flames and smoke were still coming from the furnace and the work of rescue was dangerous in the extreme, but, covering their hands, faces and heads with cloths, the rescuing party went bravely to work.

The injured men were all leaning over the mouth of the furnace when the explosion occurred. Three men died before they reached the bottom of the elevator shaft and the other six died between 5 and 8 o'clock this morning. As the injured men were taken down from the furnace top they were removed to an improvised hospital in the company's office and the company's staff of physicians and medical aid from McKeesport and Pittsburg summoned.

Five of the men were so badly burned and terribly injured that the physicians did not deem it necessary to remove them to any hospital as death seemed inevitable in a few hours and no hospital could relieve their sufferings. Two of the men who were on top of the furnace when they reached the ground were revived and there being some hopes for their recovery they were taken to their homes.

The contents of the furnace were blown out and scattered for hundreds of yards around the furnace, falling in all parts of the yard, cutting and burning about ten men who were working below, but none were seriously injured. The firey shower fell on the carpenter shop of the company about 100 yards from the furnace, and it was soon in flames and was destroyed with its contents. The bell of the furnace was shattered and scattered; the roof of the cast house was crushed in and ruined. The contents of the furnace were scattered abroad, and the furnace is badly damaged and may have to be rebuilt. If this should be the case the total damage will be $30 000

The Braddock fire department was called out and prevented the spread of the flames and members also aided in the work of rescue and did police duty. The scenes as the men were carried to the office of the company were intensely exciting and women and children rushed frantically from their houses, and the large force of policemen and guards was powerless to prevent them from rushing into the improvised hospital and deadhouse in search of some member of their families. Tears and lamentations, anxious faces and agonized expressions, wringing of hands and tearing of hair, were all witnessed around the scene of death and destruction, and the stoutest hearts were moved to pity. The homes of the killed and injured men were near the furnace and the street in that vicinity were filled with a mass of weeping, frantic, half crazy women and children, and that part of Braddock is, indeed, a house of mourning.

Two of the injured died after reaching the hospital, making the number of dead eight. The injured were burned so badly as to be beyond recognition and the identity of the two will not be known until the bodies and such portions of the clothing as remain in tact are viewed by their friends.

FIRE IN MUNCIE.

Blaze Threatened the Business Center of the City.

Stable With Two Horses and Other Property Destroyed--Thought to Be Incendiary.

MUNCIE, Aug. 20.—John Williams' stable burned, in the heart of the business center of Muncie, late last night. Two valuable horses, a carriage, buggy and much grain burned. A dozen big business blocks were in great danger and the electric light supply to scores of business houses was cut off. There is no insurance.

Before the fire was quenched the Calvert sisters' business block, on High street, was on fire. It was occupied by Franklin & Mahoney, proprietors of the Yorktown flour mill, as an exchange depot. Two horses and a lot of flour and 1,500 dozen eggs, with two horses owned by Charles Haxton, of Rochester, Ind., burned. The High street theater was badly scorched.

The police fear the fires were started by robbers attracted here to the fair.

THE FIGHT OF HIS LIFE

Being Made by Senator Brice in the Ohio Convention.

To Make the Buckeye Democrats Look Through the Same Financial Spectacles That He Uses.

SPRINGFIELD, Ohio, Aug 10.—The district and other preliminary meetings of the democratic state convention were held here today preparatory to the assembling of the convention at 10 a. m. tomorrow.

Senator Brice reached Lima from New York yesterday and arrived here this morning. He is making the fight of his life for harmony with the views of President Cleveland, Secretary Carlisle and himself on the financial question. He is not taking an aggressive part for the nomination for governor or other offices, but is interested in the organization so as to control the committee of the credentials, which will determine the contests, and the committee on resolutions, which will report the platform. He is believed to have a majority of the 808 delegates with him, but the free silver men claim 400 of the delegates, or enough to make trouble in case concession is not made to them.

The delegates are here today and the question is as to what concession should be made to the minority, which claims to be over two fifths and almost one half the members of the convention. The Brice men are raising no objection to any of the free silver candidates, not even to Hon. John H Thomas and Col. James Kilbourne, for governor, who they announce are both pronounced advocates of the free and unlimited coinage of silver.

John H. Thomas has opposed Senator Brice very strongly. But today Senator Brice, Ex Governor Campbell and other leaders dined with Mr. Thomas and it is understood that a compromise was outlined, but it will not be known what the leaders did until after their plans are developed in the convention tomorrow.

Senator Brice is the temporary chairman of the convention and his key note speech is sure to be for "honest money, without regard to the outcome of the fight tonight for the control of the convention. His speech will be of considerable length.

Immediately after its delivery tomorrow morning come the reports from the committee on credentials, the majority contesting for the seating of the Brice men, and the minority for seating the free silver contestants. In considering these reports the senator may have some close ruling and the silver men may get mad. It is at this juncture of the proceedings that the contest between the free silver and the Brice men is expected, although the latter have things their own way today.

Just before Senator Brice arrived at 11 a. m. the city was flooded with dodgers bearing the following resolution adopted at the meeting of silver delegates:

"We favor the immediate restoration of the law providing for the free coinage of both gold and silver coins and their use, without discrimination as provided for in the constitution."

The silver men met Senator Brice and pledged him they had no fight on him and all they wanted was this plank. The senator and his friends are non-committal and want all to wait for the regular report. On the arrival of the train bearing ex-Governor Campbell at noon, Campbell badges were distributed broadcast in anticipation of his nomination. All leaders and delegates arrived today.

DENVER DEAD.

When Complete the Roll Will Contain Twenty-Five Names.

DENVER, Col., Aug. 20—Twelve bodies have so far been taken out of the ruins of the Grumy hotel, and it is evident that the death roll, when complete, will contain twenty-four or twenty-five names, possibly more. The dead already taken out and identified are:

Frederick Houbold, manager of the opera house, Lisbon, Iowa; Robert C. Greiner, manager of Gumry hotel; Mrs. Robert C. Greiner; James Murphy, contractor, Denver; George Burt, Rock Island railroad conductor; E. F. McCloskey, mine owner, Cripple Creek; Mrs. G. R Wolfe, Lincoln, Neb; child of Mrs. Wolfe; William Richards, elevator pilot; B. I. Lorah, Central City, Cyl; Ferdinand French, treasurer of Gilpin county, Col; Myron F. Hawley, Union Pacific railroad clerk.

The statement made yesterday that Mrs. R. C Griener, one of the victims of the Gumry hotel disaster, was a daughter of Peter Gumry, who was also killed, proves incorrect. Mr. Gumry was never married and leaves no known relatives. He leaves property valued at $100,000.

Wants to Fight.

NEW YORK, Aug 20—John Valentine, an English pugilist, was one of the first cabin passengers of the Anchor line steamer Circassia, which arrived today. He has come to America with the intention of challenging "Jack" McAuliff, the light weight champion of the United States. He hopes to make a match with the American for a fight, to take place either here or on British soil. He claims to have plenty of backing and is confident of his ability to vanquish his opponent.

Child Recovers at its Funeral.

HUNTINGTON, Ind., Aug. 20—A child of John Dill, of Rock Creek township, this county, died Saturday. It was laid out and all arrangements perfected for the funeral and burial. Before the time arrived for the funeral, however the child showed signs of life. Its body was well rubbed and wrapped in warm flannel, and it soon began to breathe, and is now in a fair way to get well.

SALOON TRAGEDY.

Theodore Matz Stabbed by the Man He Would Put Out.

The Bloody Affray Was the Outgrowth of a Quarrel Over the Price of a Drink.

NEW YORK, Aug. 20.—Theodore F. Matz, a saloonkeeper, at 517 East One Hundred and Seventeenth street, was stabbed in the abdomen shortly after midnight in his saloon. His assailant escaped. Matz's wound may prove fatal. The man who did the stabbing had ordered a glass of beer, for which he refused to pay. Matz tried to eject him and in the scuffle which ensued the man cut him with a knife, after which he fled. Matz gained some notoriety a few weeks ago by bringing to a test the police regulation under which saloons had been kept closed in the hour between midnight Saturdays and 1 o'clock Monday mornings.

OFF FOR HAVRE.

The San Francisco Takes to the Sea.

Her Present Destination is France, but She Will Ultimately Find Her Way to the Mediterranean.

WASHINGTON, Aug. 20.—Admiral Kirkland sailed today with the San Francisco for Havre, France, and it is possible that the cruiser may continue on to the Mediterranean, although it has been thought by officials here that the Marblehead would be considered sufficient to protect American interests. When Admiral Kirkland was in Asiatic waters before he made a careful report to the navy department upon the allegations that had been made of outrages there.

This report showed that while there were many rumors afloat as to outrages, such as the crucifixion of some persons, he was not able to find anyone who could give definite information as to any such affair or to definitely locate the place where the alleged outrage took place. It is said at the state department that Minister Terrell is taking every possible precaution to protect Americans and their property.

TRIAL RACES.

The Defender and the Vigilant Competitors

For the Honor of Racing the Valkyrie III for the America's Cup—Defender in the Lead.

NEW YORK, Aug. 20.—The first of the trial races of the yachts Defender and Vigilant to decide which shall contest with Valkyrie III for the America's cup, was sailed today. The course was ten miles south, southwest from Sandy Hook lightship which means a beat to and around a mark boat off Ashbury Park. The Vigilant had a lead of 57 seconds at the start. Vigilant rounded lightship at 2:08:40, four minutes behind, and pulled up one minute and seventeen seconds in the run home. After rounding, Vigilant stood away after Defender on the starboard tack.

RACE CALLED OFF.

HIGHLANDS OF NAVSINK, Aug. 20.—2:40 P M—Defender has eased of her sheets and is now running back towards Sandy Hook. The race has been called off.

THE MARKETS.

Chicago Markets.

CHICAGO, Aug. 20—Wheat continued its decline today. Cables were lower, northwestern receipts were liberal and there was no outside trade. September opened ½c lower, at 64½c, sold from 64⅜c to 64½, and reacted to the opening price.

Corn was weak on the more favorable weather. September opened unchanged at 38⅜c, and sold to 38½c.

Oats were easy with corn. September opened ⅛c lower, at 19½c.

Provisions were firm on the firm live hog market. September pork opened 2½c higher, at $10 02½; September lard sold at $6 15, and ribs at $6 02½.

MORA'S CLAIM.

It Will be Settled by Payment of Principal Only.

General Campos Will Pay Over the Amount in Spanish Gold Dollars at Havana, Cuba.

WASHINGTON, Aug. 20.—An agreement has been signed by Secretary of State Olney, Minister Dupuy De Lome, of Spain, Antonio Maximo Mora and Mr. Mora's counsel, providing for the settlement of the Mora claim on the basis of $1,500,000, on the 15th of September next. By the agreement the claimant waives all demands for interest and accepts the amount named as full satisfaction of the claim. This agreement was reached as the result of negotiations conducted between Minister De Lome and Secretary Olney, largely since their departure from Washington. The memorandum was signed one day last week, Mr. Mora and the attorneys being summoned to New England for the purpose of consultation and to attach their signatures.

There is only one point on which it appears possible that there may yet be a hitch. The Spanish government insists that the payment shall be made by Capt. Gen. Campos, in charge of the Spanish forces in Cuba, and that the money shall be transferred to Mora or his representatives in Havana. Mr. Mora does not accept this condition, and insists, as the settlement is the result of negotiations between Spain and the United States, that payment should be made either in Madrid or Washington.

The agreements provide that the claim shall be paid in Spanish gold dollars, which are of slightly less value than the American coin. International lawyers say that the instructions of contract contained in the resolution directing the state department to collect not only the principal but the interest on this claim is in no sense binding and that in case the point is raised in any way, it will be sufficient to show that Mr. Mora has the right to waive the interest.

WASHINGTON, Aug. 20.—Although the Mora claim has not been satisfied as yet by Spain there is already a prospect of litigation between attorneys and others having an interest in it. James E. Dexter has filed a bill asking an injunction to restrain Jos. P. Germuiller from transferring an interest in the fees which Nathanian Paige, Mora's attorney, is to receive. The bill says that attorneys in the case are to receive forty per cent. of the $1,500,000 claim and the present suit grows out of an assignment of only a $2,000 interest in the fees for which $400 was paid in 1892

PROSPECTIVE RIOT.

Whites and Negroes Again at War.

The Latter Will Seize the Polls if They are Not Permitted to Vote for Delegates.

ATLANTA, Ga., Aug. 20—A special to the Journal from Ulmer, Barnwell county, says that rumors were current this morning that if the negroes were not allowed to vote at the election to be held today for delegates to the constitutional convention, they will seize the polls and vote at any cost. The white men are armed with Winchesters and shotguns and will resist any such effort.

LOYAL TO HER CONVICT LOVER.

William Mitchel and Lizzie Rogers Wedded After Five Years.

LEBANON, Ind., Aug. 20.—After five years of patient waiting, William Mitchel, an ex-convict, weds Miss Lizzie Rogers, of this city. Mitchel was arrested on a charge of larceny and incarcerated in the county jail to await trial, and it was then that he first met Miss Rogers, who was acting in the capacity of chief cook at that place. As Mitchel was possessed of a good education and was attractive, he soon gained favor with Miss Rogers and a courtship under difficulties began. Mitchel was tried and convicted and sentenced to seven years' imprisonment, but by good behavior was liberated in five years. Miss Rogers, however, after spending the greater portion of her earnings in his behalf, was daunted not in the least She continued to use every means she had to procure his liberty, but without avail. Out of her little earnings she would purchase dainties and send him. Mitchel was liberated Saturday and at once proceeded to the quiet little cottage of his betrothed, and at high noon yesterday they were married.

NAILS WILL GO UP.

Likewise the Wages of the Men Who Make Them.

PITTSBURG, Aug. 20—The National Association of Wire Nail manufacturers is meeting here today to consider the advisability of advancing the price of nails from $2 15 per keg to $2 25. Trade was reported brisk. No action had been taken at noon, but a prominent manufacturer stated that the advance would very likely be made. If the prices are advanced, it is said, the wages of the wire nail workers will be increased.

MISTAKE SOMEWHERE.

The Report of a Bad Wreck Denied by Railway Officials.

JEFFERSONVILLE, Ind, Aug 20—A bad wreck is said to have occurred on the Baltimore and Ohio Southwestern road about sixty miles from here this morning. Four passengers and the engineer are reported killed.

CINCINNATI, Aug. 20.—The superintendent of the Baltimore and Ohio Southwestern says trains are all on time. No report of any wreck on their line.

KEEPING UP!

Maggie Kline Wants a Divorce From William Kline,

But There Were Three Marriage Licenses Granted and That is a Gain for Matrimony.

F. H. Kleekamp, as attorney for the plaintiff, has begun an action in the superior court asking that Maggie Kline may be given a divorce from her husband, William Kline. The parties were married on the 20th day of July, 1893, and before a month had elapsed the defendant abandoned the plaintiff and since that time has made no provision for her support. She does not now know where he resides. The plaintiff is a stenographer residing in this city.

Edward Lautermier and Anna Koch, Julius Gaenge and Katie Werkman, Geo. W. Cummings and Lillie M. Powell have been licensed to wed. The latter couple were married last evening by Justice Harry F. France, at their home, on Barthold street.

The case of John Dorris, who was charged with stealing a suit of clothes and some other articles from a roommate, was given a preliminary hearing in Justice France's court yesterday and he was bound over to await the action of the grand jury in the sum of $400.

Justice Huser fined Wm. Diedrich for assault. Joe Van Horne was acquitted.

Justice Bohen is hearing the Somers case this afternoon.

THE ELECTRIC ROAD.

Commissioners of Whitley County Give it a Franchise,

And It Will Be Built From Fort Wayne to Everett Lake and Then to Columbia City.

The county commissioners of Whitley county have granted a franchise to the Everett Lake Electric Railroad company for the building of their line of electric railroad from Columbia City to the Allen county line and the city council of Columbia City will meet tonight for the purpose of granting the company the franchise to build a road into that city. It is the intention of the company to push the road right on to Columbia City soon after it is built to Everett lake.

THREW THE SWITCH

Wrong and the Train Jumps the Track.

The Engineer is Instantly Killed and Five Passengers are Injured.

LOUISVILLE, Ky., Aug 20—News was received here of a bad wreck on the Big Four, near Lawrenceburg, Ind., this morning. The engineer was killed. The accident occurred at 6 o'clock this morning. The operator threw the switch wrong and the engine and six cars were ditched. Five passengers were injured. The train was on its way from St. Louis to Cincinnati. No names were given.

THE HOLTHILL REPORTS.

Reaches Queenstown in Safety After a Long Voyage.

PHILADELPHIA, Pa., Aug. 20.—A cablegram to the Maritime Exchange announces the arrival at Queenstown today of the bark Holthill, from San Francisco. This is the vessel which it was feared was sunk with all on board in a collision in midocean on July 14, by the steamship Prince Oscar, which also foundered. The Holthill left San Francisco in April and was due at the scene of the disaster about the time of its occurrence. The news of the safe arrival of the Holthill renews the conjectures as to the identity of the unknown vessel sunken.

THE SEVENTH ARREST

In Connection With the Chicago Bedding Company's Fire.

KENOSHA, Wis., Aug. 20.—Another arrest has been made in the arson and conspiracy case in connection with the burning of the factory of the Chicago Bedding company.

The prisoner is Bernard Huffer, a wealthy Chicagoan. This makes seven men now under arrest on the same charge. The police are after two more Chicago men.

ON A STRIKE.

The Mill Workers of Dundee Leave Their Posts.

DUNDEE, Aug. 20.—Without waiting for a reply to a demand for an increase of ten per cent on their wages, the mill workers here have begun a strike. The mills are closed and 7,000 hands are idle. The mills and manufacturers at a meeting this afternoon decided to refuse to grant the increase. A general strike is expected tomorrow.

PULLED THE FIRES.

The Mining Companies Carry Out Their Threats.

ISHPEMING, Mich., Aug 20—The Lake Angeline and Cleveland Cliffs companies today pulled the fires from under their boilers preparatory to an extended shutdown. The mines are fast filling with water. The strikers held a meeting today, but the attendance was small.

Mr. and Mrs. John Bostick, of 130 East Wayne street, have issued invitations to a large reception to be given September 2, the twenty fifth anniversary of their marriage.

WITH A RUSH.

A Large and Enthusiastic Meeting at the City Hall.

Fort Wayne Will Celebrate Her Centennial--Not Next Year but in October, 1895--A Sure Go.

The promoters of the centennial celebration were more than pleased at the large turn out of citizens at the city hall last evening. The project is growing in favor and before this week is over the plans will all be made and a grand four-days' jubilee in sight. Every citizen in Fort Wayne should feel him or herself personally interested in the success of this undertaking, as it means the bringing to this city of thousands of visitors, every one of whom will spend money. Not only this, but city pride should stimulate everyone to activity and we should not allow so important an event to pass by unnoticed.

Last night a permanent organization was effected. P. A. Randall was selected permanent chairman and Maj. J. E. Miller secretary. Mr. Randall stated that he was certain $10,000 could be raised and that easily. He began to make a rough estimate as to where the money was to come from, and before he had concluded everyone in the hall had agreed that the money could soon and easily be raised.

Many were present last night who were not at the meeting last week and among the number called on to speak were Hon. S. M. Foster, Dr. C. B. Stemen, Adolph Diamond, A. I. Friend, Anselem Feubler and others.

Charles Archer moved that the chairman appoint a board of thirty-five directors. This motion being seconded, Mr. Randall said that in the course of the deliberations of the committee appointed last week, this subject had been canvassed and before putting the motion, he would read a list of thirty-five names that had been suggested after some consideration and that the vote could then be taken direct upon the names presented. The following is the list:

BOARD OF DIRECTORS.

C. F. Mubler, Charles McCulloch, S. M. Foster, Louis Fox, J. H. Bass, S. F. Bowser, J. B. White, R L Romy, A. E. Hoffman, S. C. Lumbard, J. C. Peters, C. S. Bash, William Geake, George W. Pixley, E. F. Yarnelle, A. I. Friend, E. C. Rurode, S. B. Bond, L. A. Centlivre, W. L. Moellering, C. A. Knight, Gottlieb Heller, C. E. Reese, E L Siver, R. B. Hanna, Theo. Frank, S. R. Alden, J. M. Barrett, W. H. Shambauch, B. W. Skelton, W. W. Muugen, Willis Hatersley, Ed Gilmartin, A. H. Dougall, H C. Graffs.

This list was unanimously indorsed.

This board is to meet at the city hall tomorrow evening. To them is committed the supervision of the entire celebration. In view of the short time that remains for the work a committee on ways and means, numbering nearly 200 prominent citizens, was appointed. The secretary was instructed to notify each by postal card. They will also meet tomorrow night and, as their names represent, as do those of the board of directors, the wealth and enterprise of the city, Fort Wayne is sure of a centennial celebration worthy of the occasion.

Every member of these committees is expected to be present at the city hall tomorrow evening.

ABOUT FLOWER SEEDS.

When They Should be Sown to Obtain Best Results.

Many people make the mistake of sowing all kinds of flower seed in the spring of the year and are frequently disappointed in the results. The seeds of the following varieties, if sown in September, will produce early spring blooms and many of them should not be sown at any other time:

Abutilion, aconitum, adonis, alyssum, ampelopsis, anemone, antirrhinum, aquilegis, azalea, double daisy, canterbury bell, candytuft, carnation, centaurea, crysanthemum, cineraria, clematis, cobcea, cowslip, cyclamen, larkspur, foxglove, perennial pinks, ferns, gloxinia, edelweiss, heliotrope, hollyhock, moon wert, kenilworth ivy, lantans, lavender, lobelia, maurandis, mignonette, musk plant, morget-me-not, pansy, passion flower, petunis, polyanthus, primrose, pyrethrum, sweet rocket, smilax, stocks, sweet william, valerian, verbena and many varieties of sweet peas.

BOARD OF WORKS.

Independent Telephone Company Again Asks for a Franchise.

Charles S. Bash again appeared before the board of public works yesterday and asked for a telephone franchise. This is the company, mention of which was made in THE SENTINEL some months ago. Mr. Bash stated that no decided move would be made until the return of Mr. Henry C. Paul from Europe, thus conceding that gentleman's connection with the scheme. The board took no action for the present on the matter, deciding to consider the question before granting a franchise. Mr. Bash further said that the company would be in operation within six months of the concession of the franchise.

The question of opening up Fifth street came before the board and was continued until September 16.

Miss Mayhew, matron of the Hope hospital, asked the board to remove the drinking fountain in front of the hospital, as the noise of teams driving up was a source of annoyance to the patients. This will likely be done.

An application from Richard Elliston, asking to be appointed attendant at the crematory, was received and filed.

A resolution to pave with brick the alley between Lewis and Jefferson streets, was up for approval, but on account of a remonstrance from property owners affected by the improvement, action was deferred until the first meeting in January.

Other business of an unimportant nature was transacted.

THE ROBBERS JUMPED.

A Baker Street Resident Has an Adventure.

The Police Investigating Into the Metzgar Robbery--Police Court --Other Jottings.

Burglars are still about the city and seem to be very industrious. Last night they were on Baker street and had to flee at a lively pace to avoid capture. During the night they entered the home of Henry Steineker, the well known employe of the Fox cracker bakery, who resides at 22 Baker street. The family were awakened by a window being opened in the second story of the building and a few moments later footsteps were heard in the rooms above. Mr. Steineker sprang out of bed and started up stairs. The burglars evidently heard him coming, for they jumped out of the open window onto the kitchen roof and thence to the ground. They had effected an entrance into the house by prying up the window, out of which they escaped. Nothing was found missing, as the burglars hardly had time to lay hold of anything.

HE PAWNS THINGS.

The young son of highly respected parents is in trouble, having recently carried a number of valuable articles to a pawn shop and raised some extra spending money. The officers are investigating.

POLICE COURT.

There were three cases on trial before Mayor Oakley this morning.

John Phillips, the man who killed Bud Green, was up on a charge of intoxication. He was arrested at No. 8 Columbia street, at the home of a relative. Phillips was raising a disturbance and threatening to hurt someone. He was sent to jail.

James Smith was drunk at the Berghoff park last evening and when remonstrated with struck one of the Berghoffs. This morning he was sent to jail.

About 7:30 o'clock this morning, on East Columbia street, Officer Hardendorf arrested a colored man who was carrying a number of packages of cigarettes and some plug tobacco. He was offering the cigarettes at two packages for five cents and the plug tobacco at a very low figure. For this reason the officer placed the man under arrest, suspecting the goods had been stolen. No evidence as to this fact could be brought out at police court this morning and the man was let go.

WILL COME UP AGAIN.

Tomorrow evening, so a member of the board of public safety stated this morning, Mrs. Hanna Egg will be called upon to testify in the Bowers case under oath. If nothing new can be obtained the whole matter will likely be dropped.

CASE CONTINUED.

The case against Neumier, the saloon man charged with violating the Nicholson law, was continued until Friday by the mayor, this morning.

ARE INVESTIGATING.

The police are this afternoon investigating a clue which may lead to the arrest of the robbers who entered the home of County Clerk Harry Metzger and carried off about $125 worth of plunder. It is said that a search warrant was sworn out and a residence searched. Many have come to believe that the recent burglaries about the city are the work of home talent.

WAS A ROBBER.

Late this afternoon it is learned that the colored man arrested early this morning by Officer Hardendorf is wanted for robbing a Nickel Plate freight car. The fellow left town at noon.

ROBBERY AT HILLSDALE.

Sheriff Clausmeier is looking for some robbers who are supposed to be here from Hillsdale, Mich. Last night they stole two bicycles, two revolvers and other goods at that city.

A BIG PARTY.

Seventy-five of Our People Leave for Boston Tomorrow.

THE SENTINEL has already published a list of the names of the people who will leave tomorrow over the Wabash for Boston to attend the national conclave of the Knights Templar and it adds today the following: A. B. White, Gus Rabus, Mr. and Mrs. W. J. Brobasco, Mr. Green and Mr. and Mrs. Geo. Gale, of this city; Mr. and Mrs. Wagner, of Delphos, and Mr. Metzer, of Huntington. There will be seventy-five people in the party leaving here at 8 o'clock tomorrow morning, reaching Detroit at noon, Kingston next morning, Montreal via. St. Lawrence river steamer that evening, thence on to Quebec, the White Mountains, Portland, Old Orchard Beach, etc., to Boston. Two Wagner palace sleeping cars will be in the train running through to Boston.

James Mitchell, editor of the Dispatch, had Officer Summers arrested on the charge of provoke. The case was continued by Justice Bohen until Saturday, at the request of the defendant.

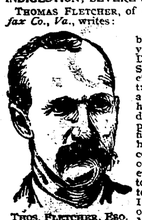

THE STUDY

— of the action of medicines, or vegetable compounds, upon the stomach, and tests in many hundreds of cases, long ago convinced Doctor R. V. Pierce, Chief Consulting Physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., that all cases of Indigestion, Dyspepsia and Liver Complaint could be cured permanently if the right treatment were given. In support of his belief that he had discovered an alterative extract which he called "Golden Medical Discovery," that would cure these diseases, he collected from all parts of the country the evidence of those who had used his medicine, and he has asked the public to investigate for themselves, as he would be glad to furnish the names and addresses of thousands of people who have used Dr. Pierce's Golden Medical Discovery. All interested should send for a little medical treatise on Dyspepsia, Chronic Diarrhea, "Liver Complaint," Biliousness, Constipation and Piles, published by the World's Dispensary Medical Association, Buffalo, N. Y., and mailed on receipt of six cents in one-cent stamps. This book also contains the photographs and testimony of many persons who have suffered from diseases of the digestive organs.

INDIGESTION; SEVERE PAIN IN STOMACH.

THOMAS FLETCHER, of *Clifton Station, Fairfax Co., Va.*, writes:

THOS. FLETCHER, ESQ.

"I suffered the terrible tortures for ten years with what your Dr. Pierce's Common Sense Medical Adviser describes as 'Gastralgia' (pain in stomach). I employed our home doctor—took 15 dozen bottles of sarsaparilla with no benefit; then I took one-half dozen bottles of a celery compound without any benefit; then eight bottles of iron tonic, yet I was no better; this was in 1884. I then took six bottles of Dr. Pierce's Golden Medical Discovery, *which made a new man of me.* I am now fifty-two years old, and for the past five years I have worked very hard on my farm. It is impossible for me to say too much for the 'Golden Medical Discovery.'"

OUR bicycle column today contains interesting local news.

THE cool weather last evening put a sort of damper on the ice cream business.

THE Ohio democrats ought not to let Senator Brice lead them around by the nose, but they probably will.

THE latest reports show that in the last battle of Bannockburn the Indians got the worst of it. The white men did all the killing, both of red men and deer.

OUR present county commissioners are doing good work in the way of bridge building. The finishing touches on the Esmond bridge were made today. This is one of the best and most frequently traveled bridges in Allen county.

A JUSTICE of the peace of Perkinsville, Ind., married his first couple the other day, and this is the way he tied the nuptial knot: "Them as this court has joined together let no man put asunder, but let little children come unto them. So help me God."

THERE is no reason why postmasters should not be elected by the people instead of being appointed by the president. The people of each city and town know vastly more than the president does of the qualifications of those who are the candidates for postmaster.

SURELY the democratic candidate for president in 1896 ought to be taken from the west. Ever since 1864 an eastern man has been the nominee of the party and it is about time to change the order of things and let a western man have a chance. The democracy of the west will insist on having the presidential candidate next year.

NEBRASKA is richer today than at this time last year by at least $39,000 000 At the most conservative estimate, three of its grain crops are worth that figure. Two of them have already been gathered and the third is practically beyond danger. It was only a few months ago that the people of Indiana were sending aid to the Nebraska sufferers.

EX-ASSOCIATE JUSTICE WM. STRONG, of the United States supreme court, died at Lake Minnewaska, N. Y., yesterday. He was about eighty-seven years old and his death had long been expected. He was taken to Lake Minnewaska several weeks ago suffering from catarrhal affection of long standing. His system was greatly weakened by a fall down a flight of stairs at his home in Washington about two months ago. Justice Strong was appointed to the supreme bench by President Grant in 1870. He resigned from the supreme bench in 1880 on account of age, in the full maturity of his great powers, and until recently resided in Washington.

THE people who attend the races which take place in this city next month will have the opportunity of seeing the fastest horses in the country, as negotiations are on foot for a great race between Robert J., Joe Patchen and John R. Gentry. It is safe to predict that if this race is arranged it will be the means of bringing to Fort Wayne the largest crowd of people that ever came together here to witness horse racing.

CAPITALISTS met at Hicksville, Ohio, last Saturday, and perfected arrangements to construct an electric railroad to connect the towns of Bryan, Hicksville and Fort Wayne. A meeting of the members of the company will be held soon and application will be made for articles of incorporation and a charter. The movement is said to be backed heavily by eastern capitalists. As soon as arrangements can be perfected work will commence on the road and a speedy completion is promised.

Golden Harvests Both Ways.

This is to be a great year of harvests. The government report for August indicates a return of 2,500,000,000 bushels of corn, figures so stupendous in their aggregate as to stagger comprehension. That is more than twice the amount raised last year, and quite four hundred million bushels beyond the premium crop of any previous year. All precedents give way before the coming of the golden stream of 1895.

The banner harvest heretofore was in 1889, when 2,212,000,000 bushels were realized. The corn area of that year covered 78 319,000 acres, while this year it takes in 82,000,000 acres. Such comparisons indicate how much superior are the harvests of this season over any other.

The corn production for 1890 was valued at $754,433,451 and in 1892, when the yield was 2,060,154,000 bushels, the value was $642 146,630 at the rate of 36 cents a bushel. This year the estimate of 2,500,000,000 bushels is based on an average selling price of 30 cents a bushel, and in this single cereal alone the farmers have a return of $750,000,000, even at that low rate.

The farmers find in returning prosperity an opportunity to square accounts and adjust balances, and if the speculators can be set aside their bank deposits will soon be in a condition to meet any future demand, with a nest egg left over.

Embassador Eustis.

Every American, whether he be Democrat, Republican, Prohibitionist or Populist, will echo the warm praise the editor of The Review of Reviews bestows on the American embassador at Paris for his intense and enthusiastic Americanism. In particular The Review praises the Fourth of July banquet of the American chamber of commerce in Paris, where M. Hanotaux, the French minister of foreign affairs, sat on the right of Embassador Eustis and made a rousing speech, in which he complimented the United States for its "admirable practical sense and legitimate authority among the nations to restrain warfare and develop the benefits of peace."

To the hearty good understanding between Eustis and Hanotaux, in addition to the pronounced Americanism of Eustis, The Review traces already two beneficent results. One is that the republics of France and Brazil have agreed to arbitrate the question of the boundary line between Brazil and French Guiana. The other is the resolution of the French assembly asking the French cabinet to negotiate with the United States a permanent treaty of arbitration between the United States and France.

The electric long distance railway is coming just as fast as the railroad companies can change their steam engines for electric ones. And with the steam engine and its attendant nuisances half the discomforts of railroad travel will disappear. The electric road will be cheaper and faster. It will then be almost as pleasant to travel as to stay at home. There is no limit to the speed at which we can be whirled along, except just the power of matter to hang together under rapid motion. Already an electric manufacturing corporation has entered into partnership with a locomotive building company, and the two will hereafter make engines and motors for long distance railway equipment. They aim at nothing less than the development of a new electric railway system, and they will succeed. It is to be hoped the railroad companies will find some way to make over and utilize most of the engines and stock they have now on hand, so that they will not lose so much in making the change.

Mr. Rudolph Blankenberg of Philadelphia has recently returned from a trip to Japan, and the more he thinks of it the more he wonders why American tourists nearly all go to Europe when they can go to Japan in 18 days and see so much more that is worth seeing than they can in Europe. Every one who visits the country of the little brown men stays as long as he can and resolves to go back again as soon as he can, according to Mr. Blankenberg. The traveler goes over the Canadian Pacific to Vancouver, thence by steamer to Yokohama, which is reached in 12 days' sailing.

Let us have United Statesism and plenty of it among all our representatives abroad, from embassador to consul's fourth clerk. No aggressive jingoism or foolish boastfulness, but just a steady adherence to the belief that this republic is the best and greatest country that ever was, just a steady impressing of that fact on all other nations, with the assurance that every citizen of this republic at home or abroad will uphold her rights and prestige with his life if need be at any time. That is what we want. That is the kind of feeling that has enabled Japan to whip China, the kind of feeling that has enabled her to progress more in 40 years than other nations have done in 200 years.

A PLEASANT SUMMER SHOWER

No comparison to the way we will make things hum in our Furnishing Goods Department this week. It's a snap and don't happen often. We have reduced 75 cent Negligee Shirts to 43 cents; $1.25 Negligee Shirts to 78 cents; best Unlaundried White Shirt, Linen Bosom, and thoroughly reinforced, 39 cents; Linen Collars, 8 cents; Linen Cuffs, 15 cents. Best grades of 50 and 75 cent Underwear to 39 cents; just as good next year as this, but we must make room for heavy goods.

SPOKE AND SPROCKET.

What Is Going on in Local Wheeling Circles.

A Party of Ladies and Gentlemen Make a Notable Trip to Rome City—Other Notes.

A GLOW WORM.

Close by the margin tufts of grass,
Weighed down with dew and damp,
I found you as I chanced to pass,
Your trimmed and shining lamp,
Illuminating with greenish light
The dusty road in dusky night.

A velvet ring set round with gems
That softly shone below
The pale blue chicory's tall stems,
As if the path to show
To some belated beetle who
Went stumbling homeward in the dew.

A phosphorescent beacon there—
A solitary guide,
For insect ships that sail the air
On breaths of fragrant tide:
Or were you from some realm on high—
A star dropped from the summer sky?

—FRANK DEMPSTER SHERMAN.

Bicycle Notes.

There was no regular club run on Sunday.

The Triangle team will go to Wabash from Warsaw.

Lee Heller has just received his new racing suit, orange and black.

Miss Bessie Racine and George Waldschmidt rode to Auburn on Sunday.

C. C. Cherry left today for Montpelier on his wheel. He is talking of establishing an agency in that city.

A. C. Katt, the well known bicycle dealer, accompanied by his wife, is visiting Niagara Falls and the lakes.

Harry Stonecleifer punctured a tire at Avilla Sunday en route home from Rome City and had to take the train.

Will Gouty and Harry Pickard rode a tandem to Rome City Sunday. They report the roads in not very good condition.

I. G. Wolfrom, Al. Thurman, A. Thieme, Ben Woodworth and and J. C. Siemon went to Lake Everett on their wheels Sunday.

George L. Byers puts his wheel to about as hard use as anyone in Fort Wayne. He does all his soliciting to neighboring towns "awheel."

The Indiana Machine works is busy getting out machinery for the manufacture of bicycle rims for the Old Fort Manufacturing Co., of Eaton.

Marion Black and Will Peltier, now camping at Rome City, are entered at the Warsaw races tomorrow and the the Wabash races on Thursday.

J. O. Goff lowered the city record at the mile track yesterday afternoon, riding two miles in remarkable good time, doing the last quarter in twenty-six seconds flat.

Bartlet, of "Wolf Lake," arrived yesterday evening ready to go with the Triangle team to Warsaw tomorrow. He has joined the Triangle club and will ride under their colors.

A good bicycle route to take for your vacation is from here to Toledo, boat to Detroit, then through Canada to Niagara Falls per wheel. Good roads, reasonable hotel rates and fine scenery are encountered on this route.

Luther Keil and Calvin Rieman, two well known young men, of this city, left this morning for a long trip on their wheels. Their route includes Muncie, Indianapolis, Cincinnati, Hamilton, Richmond, Portland and home. They will be gone ten or twelve days.

Messrs. Rodney and Frey Saylor, of St. Louis, Mo., are visiting Mr. George Saylor, of Lincoln avenue. They made the entire distance from St. Louis here on their bicycles and intend to return home the same way via Chicago. Both are fine musicians and entertaining young gentlemen.

Ora Goff, the well known Fort Wayne rider, is entered as follows: Warsaw, August 21; Wabash, August 22; Howard City, August 30; Huntington, September 2, and Elkhart on September 9 and 10. In fact, Ora is filling dates far and wide and proposes to win some of the prizes.

Bloomers are becoming quite popular with Fort Wayne lady riders and about thirty of them have donned the much abused garment. M. Frank & Co. have in their show window the figure of a lady riding a bike in bloomers, which attracts a great deal of attention. For a dummy figure it must be said the lady is quite good looking and, clad in bloomers and a jaunty blue sweater, looks positively charming.

Fort Wayne traveling men have put the bicycle to splendid use this summer, visiting cities within a radius of 100 miles of Fort Wayne. Wallace Caswell makes a large percentage of his trips on a bike and left yesterday for Avilla to see customers. Perry DeHaven, traveling for the Meyer Bros. drug house, makes long trips over the state drumming up business. Every day, almost, sees the wheel put to practical use. Horses and railway trains are too slow.

A pretty suburban trip is suggested as follows: Out on the Huntington road to school house No. 4 and to the first road beyond; thence west five miles to the first small church on the right hand side of the road; here turn to the right on the cross road and go one mile to the Illinois road and east to the city. This makes a pleasant run of about fourteen miles and the road is gravel all the way. The route was recently picked out by a party of ladies and gentlemen who gave a run in honor of Miss Maud Beck, of Elkhart. After the trip a delightful evening with lunch was served at the home of Miss Maud Graham.

J. W. Hayden, of the Randall agency, says: "The low handle bars are not nearly so much sought for as earlier in the season. A few young men who aspire to be cracker jacks on the race course stick to low handles, but most sensible riders are now after handle bars which will allow them to maintain an erect and healthful position." THE SENTINEL bicycle editor has never ceased to condemn the foolish posture of a large per cent. or riders. There is absolutely no excuse for riders humping themselves like dromedaries. If the people are to be benefitted by wheeling they must conform with laws of health. A stooping position contracts the chest and injures the body in many ways. The good effects of the wheel are thus completely destroyed.

About September 1 the Old Fort Manufacturing company, which some months ago was moved from this city to Eaton, Ind., will begin the manufacture of the La Mont bicycle rim. This new rim will be made from hickory elm and has a new joint, invented by Mr. La Mont, of the Old Fort works. The head of this manufacturing establishment are P. A. Randall and N. D Doughman, of this city. Mr. Randall, speaking of the new venture, said this morning: "The factory will have a capacity of 1,000 pairs of rims per day, and one-half the output is already contracted for. Mr Doughman is now in the east pushing the rim, and A. L Randall is in the west looking up our interests." "Bearings" for this month contains a half page advertisement of the new rim.

A party of Fort Wayne ladies and gentlemen made a notable run to Rome City Sunday—notable on account of the fact that nearly all the ladies came back on their wheels and accomplished a feat which has not often been performed by the fair sex of Fort Wayne who take to wheeling. The party was composed of John H. Payne and wife, Mr. and Mrs. Wheeler, A. L. Bond, Mr. Eastwood, Newhall Ransom and wife, and Miss Katie Schlatter. The party left Fort Wayne at 4:10 a. m., and made the run to Rome City in good shape. Mr. and Mrs. Wheeler and Mr. Bond came home on the train, but all the rest stayed by their wheels, arriving here about 9 o'clock in the evening. The ladies showed considerable pluck. The roads were not of the best, and the weather unfavorable.

LOCAL NEWS.

Personal Mention of People Who Are Well Known.

The Bluffton News says: "A. F. Schoch and wife, who have been guests of the family of Ferd Mosiman, returned to Fort Wayne at noon."

The Wabash Plain Dealer says: "Mrs. Minnie Fox, of Fort Wayne, arrived in the city this morning and is the guest of the family of her sister, Mrs. Chas. Rose."

The Kendallville Daily Sun says: "Misses Minnie Blase and Laura Schuckman, of Fort Wayne, are guests of Miss Lulu Reber."

The Wabash Tribune says: "Mr. Daily, employed in the office of the Pennsylvania railroad company, at Fort Wayne, accompanied by his wife and child, were the guests of Mr. R. C. Miller over Sunday."

The Peru Journal says: "Clem Webber has given up his position at John S. Hale & Co.'s store and returned to Fort Wayne, where he will have charge of the carpet department in a large store."

The Decatur Democrat says: "Mrs. John Broom, of Fort Wayne, after spending a few weeks with friends here returned home.—Dick Winch, of Fort Wayne, is shaking hands with friends here today."

The Warsaw Times says: "Mr. and Mrs. C. A. Robbins, of Fort Wayne, came over to this city Saturday on a visit to their parents. Mrs. Robbins will remain for a few days, but C. A. returned last evening.—Miss Ethel Griswold, who has been connected with the Winona ice cream parlors for several weeks past, returned to her home at Fort Wayne on Saturday evening."

Half Fare to Peru.

The Wabash will sell tickets to Peru August 26 to 31, inclusive, for one fare for the round trip. The occasion is the Street Fair and the sixty-ninth anniversary of Peru 15 10t

Died at Pierceton.

WARSAW, Ind., Aug. 20.—Alexander Ridenesugh, aged sixty, died while about his duties in the flouring mill at Pierceton. The deceased ran the engine and it was discovered that the machinery was running slower than usual. Mr. Ridenbaugh was found near the boiler dead. It is presumed that he died from heart disease.

A REMARKABLE CURE.

A CASE OF PILES OF EIGHTEEN YEARS STANDING.

Cured by the Pyramid Pile Cure.

There are plenty of pile cures which give relief and sometimes cure a mild case of piles, but there is only one which can be depended upon with certainty to cure obstinate long standing cases, and that is the Pyramid Pile Cure.

Endorsements and testimonials are received daily from men and women whose integrity and reliability are above question and in this connection a letter received from the Rev. Jas. H. Wesbrook, of Bowne, Mich., may be of interest to piles sufferers who have sought in vain for a cure. He says:

I have used the Pyramid Pile Cure and I know that it is all that is claimed for it. I had been troubled with piles more or less for about eighteen years and I had tried other remedies, but the piles grew worse until about ten months ago I used the Pyramid Pile Cure. It gave almost instant relief and I have been free from piles ever since. Rev. Jas. H. Wesbrook.

The remedy seems to act equally well in every form of piles, blind, bleeding, protruding or itching. It stops all pain almost immediately, allays irritation and removes constipation, and anyone who has suffered the annoyance and pain of a rectal trouble will appreciate the excellent results which invariably follow the first application of the Pyramid.

The Pyramid Pile Cure is prepared by the Pyramid Drug Co. of Albion, Mich., and for sale by druggists everywhere.

Two sizes, 50 Cents and $1. Sold by all druggists.

MAJOR EWING

Wins the Unfinished 2:19 Trot at Chicago.

CHICAGO, Aug. 20.—The attendance at the meeting of the Northwestern Breeders association was light yesterday. Considerable less than 1,000 people witnessed some really interesting races. But at that the management was far from being dissatisfied. Will J. Davis said the actual gate receipts were but $80 less than for the second day last year. Monday has always been the lightest day of the meeting in attendance and generally the weakest in program.

A close and bitter contest marked the conclusion of the 2:19 trot. Three heats had been finished when postponement became necessary Saturday night. Two of these were to the credit of Josephine, although Major Ewing had finished first each time and had been set back for running. Axtelloid, a three-year-old pitted against old campaigners, had a single heat when the race was renewed. Josephine was looked upon as the probable winner, but she failed to show in front in a single one of the four heats required to settle the race, one of which went to Axtelloid and three to Major Ewing.

It will be remembered that Major Ewing won just such a race as this at the breeder's meeting last year, a seven heat, postponed affair, which was won by simply outlasting the other starters, very much as in the present case Major Ewing is a six year old bay horse, bred by Rockhill Brothers & Fleming, of Fort Wayne, Ind, and owned by C. J. Franks, Rockford, Ill., who drove him. He reduced his 1894 record of 2:18¼, made at Milwaukee, to 2:16¼, in the fifth heat of the race. The summaries:

2:19 Class, Trotting, Purse $1,000—Major Ewing, 2, 5, 3, 2, 1, 1, 1; Axtelloid, 5, 2, 1, 1, 4, 2, 2; Josephine, 1, 1, 2, 3, 5, 3, 3 Time, 2:18¾, 2:15½, 2:18½, 2:16¼, 2:16¼, 2:16¾, 2:20¾.

2:15 Class, Pacing, Purse, $2,000—Phenol, 1, 5, 1, 5, 1; Nellie M., 5, 1, 3, 1, 4; Choral, 3, 4, 2, 2, 2. Dempsey, Captain Wood, Red Lady, Toxie R., also started. Time, 2:11½, 2:12¾, 2:14¾, 2:15, 2:18¾.

2:12 Class, Trotting, Purse $1,000—Miss Nelson, first; Robbie P., second; Baronet, third. Commodore Porter, Jim Hague, Alamito, also started. Time, 2:12¾, 1:14¾, 2:13½.

SARATOGA, Aug. 20.—First race, four and a half furlongs—Selling: Kilrona, first; Argentina, second; Sky Blue, third. Time, :56.

Second race, mile and a furlong—Selling: Lookout, first; Semper Lex, second; Navahoe, third. Time, 1:57.

Sherwood Dead.

ST LOUIS, Mo., Aug. 20.—Alex C. Sherwood, member of the state democratic executive committee, from the Thirteenth district, died today from an accident that occurred at the Jockey club house at the fair grounds last night.

The Ohio State Food Commission's official test showed Royal Baking Powder absolutely pure. No other baking powder tested contained less than 10% of impurities, which impurities were mostly alum.

To Steam a Pudding.

Put it into tin pan or earthen dish, tie a cloth over top and set it into a steamer; cover the steamer closely; allow a little longer time than you do for boiling.

Scotch Pancakes.

One pint milk, 2 tablespoonfuls butter, 4 eggs, ½ cupful flour, 1 teaspoonful Royal Baking Powder, pinch salt. Sift flour, salt and powder together, add milk, eggs and butter melted, mix into thin batter; have small round frying pan, with a little butter melted in it; pour in ½ cupful batter, place on hot fire to brown, then hold it up in front of fire, and the pancake will rise right up; spread each with marmalade or jelly; roll up, serve with sliced lemon and sugar.

Potato Pancakes.

Twelve large potatoes, 3 heaping tablespoonfuls flour, 1 teaspoonful Royal Baking Powder, ½ teaspoonful salt, 1 or 2 eggs, 2 teacupfuls boiling milk. The potatoes are peeled, washed and grated into a little cold water (which keeps them white), then strain off water and pour on boiling milk, stir in eggs, salt and flour mixed with the baking powder; if agreeable flavor with a little fine chopped onion, bake like any other pancakes, allowing a little more lard or butter. Serve with stewed or preserved fruit, especially with huckleberries.

OUTLAWS AT WORK.

A Lot of Depraved Indians Commit Depredations.

They Attack a Family of Indians, Kill the Aged Mother and Force the Papooses to Accompany Them.

WILCOX, Ari., Aug. 20.—A troop of cavalry has been sent to Horn Basin county, in pursuit of a band of Indian outlaws who have been committing depredations in that region for several months. A squaw has arrived here, who says she was captured by the band who murdered her mother, and forced her and her papoose to accompany them. She finally escaped and rode night and day until she arrived here to report the matter to the authorities. Several other murders are said to have been committed by the outlaws.

CHINA'S ATTITUDE.

That Government Will Prevent Further Outrages to Foreigners.

WASHINGTON, Aug. 20.—Advices have been received by officials at the state and navy departments from Minister Denby and Admiral Carpenter which indicate that neither the diplomatic or the naval representative of the United States in China regards the situation resulting from the Ku Cheng riots as very serious or alarming, so far as American interests are concerned. It appears that the Chinese government and officials are very friendly toward the United States and American citizens, and regret disturbances which have tended to cause so much consternation. Officials in Washington are convinced that both Minister Denby and Admiral Carpenter feel assured that the Chinese government will prevent further outrages and also that the alarm felt by Americans in Shanghai, Foo Chow and Tien Tsin is greater than the situation warrants. The advices from the minister and admiral are reassuring and, it is stated, not in accord with the cables of Consul General Jernigan, at Shanghai, and the statements made by other American citizens indicating that further outrages were contemplated and that the lives of American citizens and their property was in great danger. Up to noon the state department had not been advised that Consul Hixon and the English consul had not been allowed to be present at the investigation of the Ku Cheng riots, though no surprise was manifested that such was the case, as in the times past like action had been taken It is scarcely probable that a peremptory demand will be made that these officers be allowed to take part in the investigation.

TARIFF ASSOCIATION.

The Roads South of the Ohio Come to an Agreement.

NEW YORK, Aug. 20.—The members of the Southern States Tariff association assembled today in the parlors of the Waldorf hotel. There were about forty present. The meeting at once went into executive session. During the forenoon an agreement was reached as to the terms for the establishment and maintenance of rates. There are about forty sections in the agreement, which includes all of the roads south of Virginia and the Ohio river and east of the Mississippi. The secretary was instructed to draw up the agreement, after which it will be presented to the association for adoption.

KRIEGERBUNDE.

One Hundred and Forty-two Delegates at Columbus.

COLUMBUS, Ohio, Aug. 20.—In the Kriegerbunde today, National President C. J. Walruff welcomed 142 delegates. Treasurer Julius Eggers, of Chicago, reported money on hand last year, $1,961; received during the year, $1,001; disbursed, $996; balance, $1,966. This question is up for debate: Shall members be compelled, as now, to accept life insurance and subscribe to a St. Louis paper, the organ of the bund.

RAILWAY RUMBLINGS.

Brakeman Bennett Meets With a Painful Accident.

A City of Sleeping Cars—The Nickel Plate's Excursion—Gossip of the Office and Shop.

G. W. Bennett was brought in on No. 9 last evening and is now under the care of Dr. George C. Stemen. He is a Pennsylvania brakeman, and while making a coupling at Forest, Ohio, yesterday afternoon, his right hand was caught between the coupling heads and crushed. The injury is severe, though it is hoped the unfortunate man will not be permanently crippled. Bennett was en route east on the first section of No. 74 when the accident happened.

CITY OF SLEEPING CARS.

One of the unique features of the Knights Templar conclave in Boston this month will be the city of sleeping cars, the like of which has probably never before been seen in this country, says the Washington Evening Post. It will be made a feature of the triennial, and some of the finest entertainments of visiting knights will be offered at the settlement, which will hold forth in glory for a week. The Boston and Maine railroad evolved the idea when it gave an official announcement that track room for 500 sleeping cars would be provided. Day after day the magnificent stretch of green dotted with fine old trees is giving way to lines of steel gridironed with sleepers, but the park is so large that even though the work goes rapidly on, it will be many weeks before it is completed, and the 25th of this month, when the first contingent of knights reaches Boston, will find plenty of pleasant room left for the accommodation of the "sleeper visitors." Probably only breakfast will be regularly served in this car city, but booths will be arranged so that if any one is hungry or if sick ones find it neccessary to remain there all day, no one shall suffer for want of food. Nowhere about the city can a cooler place be found than in these grounds, and it is not unlikely that not a few of the visitors, especially ladies, will find it very desirable to wander about the shaded park rather than travel in the dusty and heated city. For that reason, if for no other, the committee of arrangements desires to make the place fully as attractive as the city breathing places. Some of the visiting commanderies will invite the friends whom they wish to entertain to that place, and evenings there will be a scene rivaling the most famous of Parisian boulevards.

BRIEF MENTION.

There will be two sections of Nickel Plate train No. 6 this evening.

Harry Kelker, Pennsylvania yard engineer, is off duty on account of sickness.

William Hulse, of the engineering department of the electric works, has returned from Baltimore, where he was engaged in the interest of the company for several months.

Machinist M. S. Quinn, of the Wabash shops, will spend Sunday in Champaign, Ill.

The Young Men's Chorus club, seventy in number, went to Rome City this morning.

Machinist Bob Taylor, who had been sick a week, reported for duty at the Bass works last night.

Machinist George Wilson, of the Bass works, went to Niagara Falls yesterday with the excursionists.

Nickel Plate Conductor Thomas Seaney has returned from Detroit and resumed his train duties.

The Illinois Central will this week open the bids and award the contract for fifty new locomotives.

Charles Sunderland has quit the Fort Wayne Iron works and taken a position in the Bass machine shop.

C. G. Cooper, machinist, reported for duty at the Pittsburg shops this morning. He was sick several days.

Orders for machinery and supplies pour in upon the electric works faster than the workman can build them.

Ed Wolf, Nickel Plate engineer, has a very sick boy and for some days has been unable to go out on his run.

The boiler department of the Wabash shops is busily engaged upon a new boiler for engine 470, which is being built.

The Wabash pay car will reach this city at 4 o'clock this afternoon. The Nickel Plate pay car will be in next Friday.

After two weeks' sickness, William Altekruse, a carpenter, has resumed his duties in Rhinesmith & Simonson's factory.

Nickel Plate Fireman M. O. Grubb was taken sick while in this city and was compelled to return to his home in Bellevue.

Foreman T. J. Rodabaugh, of the Pittsburg paint shop, has returned from Marshfield, Wis., where he attended the funeral of his sister-in-law.

The absentee list of the Pittsburg blacksmith shop shows that John Slater, Casper Lehmkuhler, J. D. White and Henry Danmeyer are sick.

The Pennsylvania will erect at Altoona a new steam plant which will be one of the most extensive and complete of any shops in the United States.

Mrs. J. V. Gruber, whose husband is a boilermaker in the Wabash shops, and her three children will go to Detroit in a few days to visit relatives.

Mrs. W. T. Marks and three children are at Van Wert visiting Mrs. Marks' sister, Mrs. Ellis. Mr. Marks is a machinist in the Pittsburg shops.

Machinist J. H. Hoy, who had the misfortune to lose the middle finger of his left hand in June, resumed his old position in the Pittsburg shops this morning.

Conductor Jim Wells and Brakeman J. A. Allen, of the Nickel Plate, are working again after a few days absence. Brakeman R. C. Reaser is now on the absentee list.

The electric signal plant which the Panhandle recently completed at Marion, Ind., is operating very satisfactorily, and accidents in those yards are now hardly possible.

Receiver Drake, of the Cincinnati, Jackson and Mackinaw, who has been seriously ill, is reported to be improving, and expects to be at his office again in ten days or a week.

Wabash engine 352 went to Peru this morning to haul gravel trains. Engine 10 went in the shops here for repairs this morning and engines 75, 67 and 348 were turned out.

Warsaw Times: "John Hubler, who is now in the railway mail service and resides at Fort Wayne, while on his way to Chicago, brought his little boy to this place this morning to remain a few days."

William Murphy, the house painter living on Force street, will leave the latter part of the week for Philadelphia to visit his grandparents, whom he has not seen for twenty-one years.

Machinist George H. Schack, of the Bass works, wife and son left this morning for Columbus, Ohio, the old home of Mr. Schack. They will be absent about two weeks.

Fred Gassart, a Pennsylvania brakeman, had his fingers caught between the door and the jam of a caboose yesterday and three of them were pinched so badly that Dr. George C. Stemen had to amputate the tips.

Nickel Plate engine 155 has taken her old position in the service on the fourth district, after general repairs, relieving engine 159. Ross Germain and Dennis McCarthy will have charge of 155 on alternate runs.

Work on the new elevator of the Cincinnati, Hamilton and Dayton at Toledo is progressing rapidly. The engine is in position, and in a few weeks the company will begin using it for unloading its cars promptly.

Mr. and Mrs. C. H. Bowman left for the west yesterday. They will be absent two weeks and will divide the time between Chicago, Springfield and St. Louis, where they have relatives. Mr. Bowman is a painter in the Pittsburg shops.

The absentee list in Master Car Builder J. A. Graham's office this morning contains the following new names: A. J. Shermeyer, G. Gaus, O. W. Lehman, G. Waldschmidt, F. Scheiferstein and B. Assis. All are off duty on account of sickness.

An immense crop of broom corn is in prospect and the line agents are already in the field soliciting the business, which, in good seasons, amounts to several thousand car loads, and there is always considerable competition to secure the traffic, which is hauled considerable distances and carried at good rates.

Rev. Henson, Mesdames Reitze and Keil and Mr. Eggeman and family left on No. 8, over the Pennsylvania, last night for Boston. The train was so crowded with passengers, mostly Knights Templar, that it was necessary to run it in two sections. The first section consisted of six Pullman cars and the second section was made up of coaches and baggage cars. No. 8 will again run in two sections tonight and possibly in three.

The Nickel Plate did a big business yesterday in the way of hauling passengers and excursionists. No. 4 train ran in three sections, carrying Niagara Falls excursionists, and No. 6 last night ran in two sections, the second train being loaded with Knights Templar from the west en route to Boston. The first two sections of No. 4 came from Chicago and hauled seven and ten cars respectively, the crews being Conductor Burgess, Engineer Studer and Fireman Hill on the first train, and Conductor Sauer, Engineer Haenel and Fireman Hurlburt on the second. The third section was made up here and was manned by Conductor Porter, Engineer Bottger and Fireman Lee. It consisted of nine cars. Two cars were attached to the first train at Bellevue to accommodate the passengers from that place and another train was made up at Cleveland. All these trains were comfortably loaded.

In the excitement attending the Knights Templar excursions to Boston and the Nickel Plate's Niagara Falls excursion, a lull has occurred in the talk and planning for the Wabash's excursion to Toledo next Sunday, but our people have not lost interest in the matter, and are quietly shaping affairs with a view of "taking in" the excursion. A trip to Boston and Niagara Falls is a delightful affair, but it costs both time and money, and there are many people who can ill afford the luxury of such an excursion. Their health, however, demands some change from the monotony of home life, and the Toledo excursion, being an inexpensive and at the same time a pleasurable one, is just the thing for them. Like its predecessors, the excursion next Sunday will be a big event in which family, club and society parties will be a feature. The trains will leave at 7:15 a. m. and return at 11 p. m., giving the excursionists ten hours in Toledo.

ROBY IS STILL ALIVE.

Petition Filed for a Rehearing of the Celebrated Case.

INDIANAPOLIS, Aug. 20.—A petition was filed in the supreme court last evening for a rehearing in the celebrated Roby case, wherein it was ruled that under the new law only three race meetings could be given on the same track yearly. Quoting from the opinion more freely, it was held "that the different racing associations conducting race meetings on the Roby track must not, either separately or together, give more meetings than allowed by the law passed last winter, which prohibited more than three meetings on any one track in any one year."

The petition avers that the statute is void and that the court misunderstood the governor's message, concerning which it says, that, judging from the opinion, "it leads one to accept as an historical fact that the governor, deeply impressed with the evils of gambling, brought the subject before the legislature in the most vivid terms to lead that body to adopt measures which would effectually eradicate gambling as it is done on horse racing." Still further, reading the whole message, it is apparent that it is an historical fact that the governor had two paramount objects in view: "The first being to consolidate and centralize all of the executive power of the statute in his own hands, and the second being to promote and legalize gambling on horse racing. The statute in question provides that a person may be twice put in jeopardy for the same offense, and is therefore void as to the part which would vest jurisdiction in the circuit court in this case."

Almond Cake.

One-half cupful butter, 2 cupfuls sugar, 4 eggs, ½ cupful almonds, blanched—by pouring water on them until skins easily slip off—and cut in fine shreds, ½ teaspoonful extract bitter almonds, 1 pint flour, 1½ teaspoonfuls Royal Baking Powder, 1 glass brandy, ½ cupful milk. Rub butter and sugar to smooth white cream; add eggs, 1 at a time, beating 3 or 4 minutes between each. Sift flour and powder together, add to butter, etc., with almonds, extract of bitter almonds, brandy and milk; mix into smooth, medium batter, bake carefully in rather hot oven 20 minutes in a fluted mould.

To Boil a Pudding in a Bag.

Dip bag (which should be made of thick cotton or linen) in hot water, and rub the inside with flour before putting in the pudding; when done dip the bag in cold water and the pudding will turn out easily. Always put a plate on bottom of kettle to keep pudding from burning.

The State Food Commission of Ohio has reported on thirty different brands of Baking Powder, and finds the Royal of highest efficiency and purer than any other sold in the State.

The Governor's Horses.

Indianapolis Sun.

Governor Matthews has been adding horses and vehicles to his stable lately. His newest turnout is a trap with two seats. It has a dark red running gear, black bed and the seats are upholstered in gray. Bright Eye and Mohican, a bay and sorrel team reared on the governor's farm, whisk the trap about town. In the barn, too, is a carriage and a surrey, which Beechnut, a six-year-old, drags about. The governor has a saddler, which he bought in Kentucky, some weeks ago, and paid a round price for. He wears the title of Croncracker, is a bay and is six years old. All the horses are from blooded families. Bright Eye is the speediest one of the lot and has had some track training.

$100 Reward, $100.

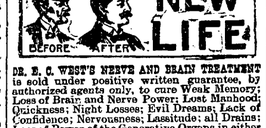

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

This is the Greatest Western Dry Goods House

Outside of the large cities, as Chicago, St. Louis, Cincinnati and Kansas City. No town of this size or double its size has a Dry Goods Store its equal. You have made it so by your patronage. You are our patrons because you can buy the best class of merchandise here at less prices than elsewhere, and because you can buy here in perfect confidence. Root & Company have only one price—we treat all alike.

CARPETS.

100 rolls of very handsome Tapestry carpets goes on sale this week at special low prices—any other store would hold them for September and get the ruling prices then. But that's not our way, we will give them out at once at the bargain bought price.

LOT 1.

Fine Tapestry carpets with borders to match every piece—high class patterns, dark, medium and light grounds.

Not $1,00 a Yard, But 73c.

LOT 2.

A very choice line of Tapestries, having borders to match. We consider the finest offering of a good serviceable carpet ever made in this city.

Not the value 85c, But 58c.

Twe more lines go in this way of selling carpets—Velvets and Body Brussels Not $1.20 yd., but 88c.

No wonder that the carpet selling is past all records.

TOURISTS UMBRELLAS.

A new and practical one—handle can be closed quickly, cannot get out of order—come in Black and Colors.

MUSLIN UNDERWEAR.

At 35 cents we have laid out for sale a line of Ladies fine Drawers—some are worth 50 and 58 cents, and some higher, but this lot goes for 35 cents.

At 60 cents another line worth 85 cents and up to $1. These will be on sale just two days, Wednesday and Thursday.

STORM SERGES

Are shown in the new Fall shades, at 40c. A great bargain lays in the 52-inch one, at 50c.

Printed French Flannels, opened new and selling too—they are wanted now, so many waist lengths are being cut from them.

50 cents a yard.

Our buyer has got into a tide of Handkerchiefs again—less than they are worth Surely all can have a Handkerchief at the price of these—just come in.

Ladies' all Linen, Fancy hemstitch, pure white, 10c.

Ladies' band hemstitch, pure linen, nothing else, the best value ever given, at 15c.

Ladies' Linen Mull, hemstitch, dainty print borders, the new thing, 15 cents.

Ladies' white embroidered Hdk'f's, all embroidered edges, which we value at 25c—give them out our buyer says at 15 cents.

For Men—another big lot of those 25 cent, fine white hemstitch Hdk'f's, all size hems.

WHITE GOODS.

Some of them a little mussed, but most all in good, clean condition—25c they were, but we have put the down price, at 15 cents.

That good Scotch crash at 8⅓ cents a yard takes hold of the housekeepers—well it may, it's a good shilling crash.

Make pastry with clean, cold hands. Dip your hands in cold water (after washing them in hot water) before you begin, or your crust will not be good. Crust may be made of butter or clarified drippings of lard; butter is better and costs but a trifle more. Look to the oven; if too cold it will make your crust heavy, if too hot it will burn it. Try it by baking a tiny piece of crust in it first Make a little hole in top crust of meat pies to let out gas.

SIX MEN KILLED.

Three More Fatally Injured and Fifteen Seriously Burned

By an Explosion in the Carnegie Steel Works at Braddock--Property, Valued at $30,000, Destroyed.

PITTSBURG, Pa., Aug. 20.—An explosion at furnace "H," of the Carnegie Steel company, at Braddock, at 5 o'clock this morning, killed six men, fatally injured three more, and seriously burned fifteen others Property valued at $30 000 was destroyed. The names of the killed were:

Steve Havrela, cut in twain, thirty-two years of age, leaves a wife and two children,

Joseph Tuckay, thirty-two years old, burned, leaves a wife and four children.

Joseph Copp, burned, thirty-two years old, single.

John Meka, burned, twenty five years old, single.

John Pookohovec, burned, twenty-five years old, single.

John Grucha, burned, thirty years old, single.

All were Poles and Huns, except Grucha, who was a German. Nine of the injured were brought to the Mercy hospital, in this city. They are reported to be resting easily.

Of the injured it is now believed that five will die Their names are.

John Warha, inhaled the flames, married, two children. John Skonda, married. Mike Jura, married Mike Kahenos, single. Andrew Drobne, single. These men were frightfully burned

The following were seriously injured but will probably recover: John Wagusky, John Sebrosky, James Harrison and two unknown men.

A number of others sustained slight burns and cuts by being hit by flying brick but they were able to go to their homes and their names could not be learned

The explosion was due to a "hang" in furnace H, which suddenly loosened and dropped into the molten metal below, generating an immense quantity of gas so suddenly that it could not escape by the ordinary means and the explosion followed

The terrible loss of life was due to a peculiar cause. A few minutes before the explosion occurred one of the top fillers dumped a barrow of material into the bell of the furnace, which he had forgotten to raise This clogged the whole furnace and prevented the gas from escaping A gang of sixteen men, in charge of James Harrison, were sent at once to the top of the furnace to remove the obstruction. All were closely crowded around the bell of the furnace removing the material which had been dumped on it, when there was a terrific explosion, and men, barrows, tools and material were hurled in all directions Flames, deadly gases and smoke belched from the furnace top and the gang of men fell as if shot.

Only one man was killed instantly. He was blown from the furnace a long distance to the metal roadway to the elevator shaft, down which he fell, and striking on a car, was cut in two, one half of his body falling on one side of the car and the other half on the other side.

The explosion was heard all over Braddock and crowds at once rushed to the scene, but none expected to witness such horrors. A relief crew was quickly organized, which went to the rescue and the large force of policemen and guards was powerless to prevent them from rushing into the improvised hospital and deadhouse in search of some member of their families Tears and lamentations, anxious faces and agonized expressions, wringing of hands and tearing of hair, were all witnessed around the scene of death and destruction, and the stoutest hearts were moved to pity The homes of the killed and injured men were near the furnace and the street in that vicinity were filled with a mass of weeping, frantic, half crazy women and children, and that part of Braddock is, indeed, a house of mourning.

Two of the injured died after reaching the hospital, making the number of dead eight. The injured were burned so badly as to be beyond recognition and the identity of the two will not be known until the bodies and such portions of the clothing as remain in fact are viewed by their friends.

FIRE IN MUNCIE.

Blaze Threatened the Business Center of the City.

Stable With Two Horses and Other Property Destroyed--Thought to Be Incendiary.

MUNCIE, Aug. 20.—John Williams' stable burned, in the heart of the business center of Muncie, late last night. Two valuable horses, a carriage, buggy and much grain burned. A dozen big business blocks were in great danger and the electric light supply to scores of business houses was cut off. There is no insurance.

Before the fire was quenched the Calvert sisters' business block, on High street, was on fire. It was occupied by Franklin & Mahoney, proprietors of the Yorktown flour mill, as an exchange depot Two horses and a lot of flour and 1,500 dozen eggs, with two horses owned by Charles Haxton, of Rochester, Ind., burned The High street theater was badly scorched.

The police fear the fires were started by robbers attracted here to the fair.

THE FIGHT OF HIS LIFE

Being Made by Senator Brice in the Ohio Convention,

To Make the Buckeye Democrats Look Through the Same Financial Spectacles That He Uses.

SPRINGFIELD, Ohio, Aug 10.—The district and other preliminary meetings of the democratic state convention were held here today preparatory to the assembling of the convention at 10 a. m tomorrow

Senator Brice reached Lima from New York yesterday and arrived here this morning He is making the fight of his life for harmony with the views of President Cleveland, Secretary Carlisle and himself on the financial question. He is not taking an aggressive part for the nomination for governor or other offices, but is interested in the organization so as to control the committee of the credentials, which will determine the contests, and the committee on resolutions, which will report the platform. He is believed to have a majority of the 808 delegates with him, but the free silver men claim 400 of the delegates, or enough to make trouble in case concession is not made to them

The delegates are here today and the question is as to what concession should be made to the minority, which claims to be over two fifths and almost one half the members of the convention. The Brice men are raising no objection to any of the free silver candidates, not even to Hon. John H Thomas and Col James Kilbourne, for governor, who they announce are both pronounced advocates of the free and unlimited coinage of silver.

John H. Thomas has opposed Senator Brice very strongly But today Senator Brice, Ex Governor Campbell and other leaders dined with Mr Thomas and it is understood that a compromise was outlined, but it will not be known what the leaders did until after their plans are developed in the convention tomorrow.

Senator Brice is the temporary chairman of the convention and his key note speech is sure to be for "honest money, without regard to the outcome of the fight tonight for the control of the convention. His speech will be of considerable length.

Immediately after its delivery tomorrow morning come the reports from the committee on credentials, the majority contesting for the seating of the Brice men, and the minority for seating the free silver contestants. In considering these reports the senator may have some close ruling and the silver men may get mad. It is at this juncture of the proceedings that the contest between the free silver and the Brice men is expected, although the latter have things their own way today.

Just before Senator Brice arrived at 11 a. m the city was flooded with dodgers bearing the following resolution adopted at the meeting of silver delegates

"We favor the immediate restoration of the law providing for the free coinage of both gold and silver coins and their use, without discrimination as provided for in the constitution"

The silver men met Senator Brice and pledged him they had no fight on him and all they wanted was this plank The senator and his friends are non-committal and want all to wait for the regular report. On the arrival of the train bearing ex Governor Campbell at noon, Campbell badges were distributed broadcast in anticipation of his nomination. All leaders and delegates arrived today.

DENVER DEAD.

When Complete the Roll Will Contain Twenty-Five Names.

DENVER, Col, Aug. 20.—Twelve bodies have so far been taken out of the ruins of the Grumy hotel, and it is evident that the death roll, when complete, will contain twenty-four or twenty-five names, possibly more. The dead already taken out and identified are

Frederick Houbold, manager of the opera house, Lisbon, Iowa; Robert C. Greiner, manager of Gumry hotel, Mrs. Robert C. Greiner, James Murphy, contractor, Denver, George Burt, Rock Island railroad conductor, E F. McCloskay, mine owner, Cripple Creek, Mrs G. R Wolfe, Lincoln, Neb., child of Mrs Wolfe; William Richards, elevator pilot; B. 1. Lorah, Central City, Cyl; Ferdinand French, treasurer of Gilpin county, Col; Myron F. Hawley, Union Pacific railroad clerk.

The statement made yesterday that Mrs R C Greiner, one of the victims of the Gumry hotel disaster, was a daughter of Peter Gumry, who was also killed, proves incorrect. Mr. Gumry was never married and leaves no known relatives. He leaves property valued at $100,000.

Wants to Fight.

NEW YORK, Aug 20.—John Valentine, an English pugilist, was one of the first cabin passengers of the Anchor line steamer Circassia, which arrived today. He has come to America with the intention of challenging "Jack" McAuliff, the light weight champion of the United States He hopes to make a match with the American for a fight, to take place either here or on British soil. He claims to have plenty of backing and is confident of his ability to vanquish his opponent.

Child Recovers at its Funeral.

HUNTINGTON, Ind., Aug 20.—A child of John Dill, of Rock Creek township, this county, died Saturday. It was laid out and all arrangements perfected for the funeral and burial. Before the time arrived for the funeral, however the child showed signs of life Its body was well rubbed and wrapped in warm flannel, and it soon began to breathe, and is now in a fair way to get well.

SALOON TRAGEDY.

Theodore Matz Stabbed by the Man He Would Put Out.

The Bloody Affray Was the Outgrowth of a Quarrel Over the Price of a Drink.

NEW YORK Aug 20.—Theodore F Matz a saloonkeeper, at 517 East One Hundred and Seventeenth street, was stabbed in the abdomen shortly after midnight in his saloon His assailant escaped. Matz's wound may prove fatal. The man who did the stabbing had ordered a glass of beer, for which he refused to pay. Matz tried to eject him and in the scuffle which ensued the man cut him with a knife, after which he fled. Matz gained some notoriety a few weeks ago by bringing to a test the police regulation under which saloons had been kept closed in the hour between midnight Saturdays and 1 o'clock Monday mornings.

OFF FOR HAVRE.

The San Francisco Takes to the Sea.

Her Present Destination Is France, but She Will Ultimately Find Her Way to the Mediterranean.

WASHINGTON, Aug. 20 — Admiral Kirkland sailed today with the San Francisco for Havre, France, and it is possible that the cruiser may continue on to the Mediterranean, although it has been thought by officials here that the Marblehead would be considered sufficient to protect American interests. When Admiral Kirkland was in Asiatic waters before he made a careful report to the navy department upon the allegations that had been made of outrages there.

This report showed that while there were many rumors afloat as to outrages, such as the crucifixion of some persons, he was not able to find anyone who could give definite information as to any such affair or to definitely locate the place where the alleged outrage took place It is said at the state department that Minister Terrell is taking every possible precaution to protect Americans and their property.

TRIAL RACES.

The Defender and the Vigilant Competitors

For the Honor of Ending the Valkyrie III for the America's Cup--Defender in the Lead.

NEW YORK, Aug 20.—The first of the trial races of the yachts Defender and Vigilant to decide which shall contest with Valkyrie III for the America's cup, was sailed today. The course was ten miles south, southwest from Sandy Hook lightship which means a beat to and around a mark boat off Ashbury Park. The Vigilant had a lead of 57 seconds at the start. Vigilant rounded lightship at 2 08.40, four minutes behind, and pulled up one minute and seventeen seconds in the run home. After rounding, Vigilant stood away after Defender on the starboard tack.

RACE CALLED OFF

HIGHLANDS OF NAVSINK, Aug. 20.—2:40 P M.—Defender has eased of her sheets and is now running back towards Sandy Hook. The race has been called off.

MORA'S CLAIM.

It Will be Settled by Payment of Principal Only.

General Campos Will Pay Over the Amount in Spanish Gold Dollars at Havana, Cuba.

WASHINGTON, Aug 20.—An agreement has been signed by Secretary of State Olney, Minister Dupuy De Lome, of Spain, Antonio Maximo Mora and Mr. Mora's counsel providing for the settlement of the Mora claim on the basis of $1,500,000, on the 15th of September next By the agreement the claimant waives all demands for interest and accepts the amount named as full satisfaction of the claim. This agreement was reached as the result of negotiations conducted between Minister De Lome and Secretary Olney, largely since their departure from Washington. The memorandum was signed one day last week, Mr Mora and the attorneys being summoned to New England for the purpose of consultation and to attach their signatures.

There is only one point on which it appears possible that there may yet be a hitch. The Spanish government insists that the payment shall be made by Capt. Gen. Campos, in charge of the Spanish forces in Cuba, and that the money shall be transferred to Mora or his representatives in Havana. Mr. Mora does not accept this condition, and insists, as the settlement is the result of negotiations between Spain and the United States, that payment should be made either in Madrid or Washington.

The agreements provide that the claim shall be paid in Spanish gold dollars, which are of slightly less value than the American coin. International lawyers say that the instructions of contract contained in the resolution directing the state department to collect not only the principal but the interest on this claim is in no sense binding and that in case the point is raised in any way, it will be sufficient to show that Mr. Mora has the right to waive the interest.

WASHINGTON, Aug 20.—Although the Mora claim has not been satisfied as yet by Spain there is already a prospect of litigation between attorneys and others having an interest in it James E Dexter has filed a bill asking an injunction to restrain Jos P. Germuiller from transferring an interest in the fees which Nathanian Paige, Mora's attorney, is to receive. The bill says that attorneys in the case are to receive forty per cent. of the $1 500,000 claim and the present suit grows out of an assignment of only a $2 000 interest in the fees for which $400 was paid in 1892

PROSPECTIVE RIOT.

Whites and Negroes Again at War.

The Latter Will Seize the Polls if They are Not Permitted to Vote for Delegates.

ATLANTA, Ga., Aug. 20.—A special to the Journal from Ulmer, Barnwell county, says that rumors were current this morning that if the negroes were not allowed to vote at the election to be held today for delegates to the constitutional convention, they will seize the polls and vote at any cost The white men are armed with Winchesters and shotguns and will resist any such effort

LOYAL TO HER CONVICT LOVER.

William Mitchel and Lizzie Rogers Wedded After Five Years.

LEBANON, Ind, Aug. 20.—After five years of patient waiting, William Mitchel, an ex convict, weds Miss Lizzie Rogers, of this city. Mitchel was arrested on a charge of larceny and incarcerated in the county jail to await trial, and it was then that he first met Miss Rogers, who was acting in the capacity of chief cook at that place As Mitchel was possessed of a good education and was attractive, he soon gained favor with Miss Rogers and a courtship under difficulties began Mitchel was tried and convicted and sentenced to seven years' imprisonment, but by good behavior was liberated in five years Miss Rogers, however, after spending the greater portion of her earnings in his behalf, was daunted not in the least She continued to use every means she had to procure his liberty, but without avail. Out of her little earnings she would purchase dainties and send him. Mitchel was liberated Saturday and at once proceeded to the quiet little cottage of his betrothed, and at high noon yesterday they were married.

NAILS WILL GO UP

Likewise the Wages of the Men Who Make Them.

PITTSBURG, Aug. 20.—The National Association of Wire Nail manufacturers is meeting here today to consider the advisability of advancing the price of nails from $2 15 per keg to $2 25. Trade was reported brisk. No action had been taken at noon, but a prominent manufacturer stated that the advance would very likely be made. If the prices are advanced, it is said, the wages of the wire nail workers will be increased.

WITH A RUSH.

A Large and Enthusiastic Meeting at the City Hall.

Fort Wayne Will Celebrate Her Centennial--Not Next Year but in October, 1895--A Sure Go.

The promoters of the centennial celebration were more than pleased at the large turn out of citizens at the city hall last evening The project is growing in favor and before this week is over the plans will all be made and a grand four days' jubilee in sight Every citizen in Fort Wayne should feel him or herself personally interested in the success of this undertaking, as it means the bringing to this city of thousands of visitors, every one of whom will spend money. Not only this, but city pride should stimulate everyone to activity and we should not allow so important an event to pass by unnoticed

Last night a permanent organization was effected P. A. Randall was selected permanent chairman and Maj J E Miller secretary. Mr Randall stated that he was certain $10,000 could be raised and that easily. He began to make a rough estimate as to where the money was to come from, and before he had concluded everyone in the hall had agreed that the money could soon and easily be raised

Many were present last night who were not at the meeting last week and among the number called on to speak were Hon. S M Foster, Dr. C. B Stemen, Adolph Diamond, A. I. Friend, Anselem Feubler and others

Charles Archer moved that the chairman appoint a board of thirty-five directors. This motion being seconded, Mr. Randall said that in the course of the deliberations of the committee appointed last week, this subject had been canvassed and before putting the motion, he would read a list of thirty-five names that had been suggested after some consideration and that the vote could then be taken direct upon the names presented. The following is the list:

BOARD OF DIRECTORS

C. F. Muhler, Charles McCulloch, S. M Foster, Louis Fox, J. H. Bass, S. F. Bowser, J. B White, R L Romy, A E Hoffman, S C Lumbard, J. C. Peters, C S. Bash, William Geake, George W. Pixley, E. F. Yarnelle, A I Friend, E. C Rurode, S. B Bond, L A Centlivre, W. L Moellering, C. A. Knight, Gottlieb Heller, C E. Reese, E L Siver, R. B. Hanna, Theo Frank, S. R Alden, J. M. Barrett, W. H. Shambaugh, B W. Skelton, W. W. Mungen, Willis Hattersley, Ed Gilmartin, A H. Dougall, H C. Grails

This list was unanimously indorsed.

This board is to meet at the city hall tomorrow evening. To them is committed the supervision of the entire celebration. In view of the short time that remains for the work a committee on ways and means, numbering nearly 200 prominent citizens, was appointed. The secretary was instructed to notify each by postal card. They will also meet tomorrow night and, as their names represent, as do those of the board of directors, the wealth and enterprise of the city, Fort Wayne is sure of a centennial celebration worthy of the occasion.

Every member of these committees is expected to be present at the city hall tomorrow evening.

ABOUT FLOWER SEEDS.

When They Should be Sown to Obtain Best Results.

Many people make the mistake of sowing all kinds of flower seed in the spring of the year and are frequently disappointed in the results. The seeds of the following varieties, if sown in September, will produce early spring blooms and many of them should not be sown at any other time:

Abutillon, aconitum, adonis, alyssum, ampelopsis, anemone, antirrhinum, aquilegia, azalea, double daisy, canterbury bell, candytuft, carnation, centaurea, cryanthemum, cineraria, clematis, cobeea, cowslip, cyclamen, larkspur, foxglove, perennial pinks, ferns, gloxinia, edelweiss, heliotrope, hollyhock, moon wort, kenilworth ivy, lantana, lavender, lobelia, maurandia, mignonette, musk plant, morget-me not, pansy, passion flower, petunia, polyanthus, primrose, pyrethrum, sweet rocket, smilax, stocks, sweet william, valerian, verbena and many varieties of sweet peas.

BOARD OF WORKS.

Independent Telephone Company Again Asks for a Franchise.

Charles S Bash again appeared before the board of public works yesterday and asked for a telephone franchise This is the company mention of which was made in THE SENTINEL some months ago. Mr. Bash stated that no decided move would be made until the return of Mr Henry C. Paul from Europe, thus conceding that gentleman's connection with the scheme. The board took no action for the present on the matter, deeding to consider the question before granting a franchise. Mr Bash further said that the company would be in operation within six months of the concession of the franchise

The question of opening up Fifth street came before the board and was continued until September 16

Miss Mayhew, matron of the Hope hospital, asked the board to remove the drinking fountain in front of the hospital, as the noise of teams driving up was a source of annoyance to the patients This will likely be done.

An application from Richard Elliman, asking to be appointed attendant at the crematory, was received and filed.

A resolution to pave with brick the alley between Lewis and Jefferson streets was up for approval, but on account of a remonstrance from property owners affected by the improvement, action was deferred until the first meeting in January.

Other business of an unimportant nature was transacted

THE ROBBERS JUMPED.

A Baker Street Resident Has an Adventure.

The Police Investigating Into the Metzger Robbery--Police Court --Other Jottings.

Burglars are still about the city and seem to be very industrious Last night they were on Baker street and had to flee at a lively pace to avoid capture. During the night they entered the home of Henry Steineker, the well known employe of the Fox cracker bakery, who resides at 22 Baker street. The family were awakened by a window being opened in the second story of the building and a few moments later footsteps were heard in the rooms above Mr Steineker sprang out of bed and started up stairs. The burglars evidently heard him coming, for they jumped out of the open window onto the kitchen roof and thence to the ground. They had effected an entrance into the house by prying up the window, out of which they escaped. Nothing was found missing, as the burglars hardly had time to lay hold of anything.

HE PAWNS THINGS

The young son of highly respected parents is in trouble, having recently carried a number of valuable articles to a pawn shop and raised some extra spending money. The officers are investigating.

POLICE COURT.

There were three cases on trial before Mayor Oakley this morning.

John Phillips, the man who killed Bud Green, was up on a charge of intoxication. He was arrested at No. 8 Columbia street, at the home of a relative Phillips was raising a disturbance and threatening to hurt someone. He was sent to jail

James Smith was drunk at the Berghoff park last evening and when remonstrated with struck one of the Berghoffs This morning he was sent to jail.

About 7:30 o'clock this morning, on East Columbia street, Officer Hardendorf arrested a colored man who was carrying a number of packages of cigarettes and some plug tobacco. He was offering the cigarettes at two packages for five cents and the plug tobacco at a very low figure. For this reason the officer placed the man under arrest, suspecting the goods had been stolen. No evidence as to this fact could be brought out at police court this morning and the man was let go.

WILL COME UP AGAIN

Tomorrow evening, so a member of the board of public safety stated this morning, Mrs. Hanna Egg will be called upon to testify in the Bowers case under oath. If nothing new can be obtained the whole matter will likely be dropped.

CASE CONTINUED

The case against Neumier, the saloon man charged with violating the Nicholson law, was continued until Friday by the mayor, this morning.

ARE INVESTIGATING

The police are this afternoon investigating a clue which may lead to the arrest of the robbers who entered the home of County Clerk Harry Metzger and carried off about $125 worth of plunder. It is said that a search warrant was sworn out and a residence searched. Many have come to believe that the recent burglaries about the city are the work of home talent.

WAS A ROBBER

Late this afternoon it is learned that the colored man arrested early this morning by Officer Hardendorf is wanted for robbing a Nickel Plate freight car. The fellow left town at noon.

ROBBERY AT HILLSDALE.

Sheriff Clausmeier is looking for some robbers who are supposed to be here from Hillsdale, Mich. Last night they stole two bicycles, two revolvers and other goods at that city.

A BIG PARTY.

The Perfume of Violets

The purity of the lily, the glow of the rose, and the flush of Hebe combine in Pozzoni's wondrous Powder.

The Evening Sentinel.

BY E. A. K. HACKETT.

WEDNESDAY, AUG. 21, 1895.

TONIGHT.

PRAYER MEETINGS—At Different City Churches.
CENTENNIAL COMMITTEE—Meeting at the City Hall.
ORGAN FACTORY MUTUAL AID ASSOCIATION—Regular Meeting.
LODGES—Concordia Lodge No. 228, I. O. O. F., Maumee Lodge No. 50, A. O. U. W.

The Ohio democratic convention is the political event of interest today and The Sentinel gives a full account of its proceedings.

The train robbers are at work again. Nothing but cold lead, liberally dealt out, will check these outlaws in their nefarious work.

With the active aid of something like 200 federal office holders, it would be remarkable indeed if Senator Brice did not succeed in controling the convention at Springfield today.

Having been nominated by the democrats of Indianapolis as their candidate for mayor, Tom Taggart is being talked of for governor. Well, Taggart is a hustler and would make a great race.

The proposed bull fight at the Atlanta exposition has been abandoned. The management discovered that the people of this country condemned such brutal exhibitions, relics of barbarous times.

The treatment of our missionaries in China ought to be thoroughly investigated. They are American citizens under the protection of the American flag and they should enjoy every right which that flag gives.

As will be noticed by a telegram in The Sentinel today, Recorder Goff almost paralyzed the whole body of New York saloonkeepers by sentencing a violator of the Sunday law to thirty days' imprisonment in the tombs and to a fine of $250. It will not take them long at this rate to find out that the present enforcement of law means something.

Mr Matthew Marshall, who writes the weekly financial letter for the New York Sun, is authority for the statement that Americans traveling or residing abroad spend at least $100,000,000 yearly in foreign lands. That is, it will take the entire gold reserve of the treasury department every year to cash the drafts made by American pleasure seekers in foreign lands!

Manufacturing industries are again on firm foundations, and judgment for this is in evidence in the list of failures for July. This year there were 261 failures with liabilities at $8,392,727, divided to the credit of manufacturing $2,021,812 and of trading interests $6,665,563. For the same period in 1894 the liabilities were $9,016,778, of which $4,500,220 were of manufacturing and $4,331,470 of trading concerns. This gives manufacturing lines a decided lead and denotes a solid, substantial revival. The constant starting up of plants and operations, many of them idle for years, shows a further marked return of confidence in the general business conditions, and every improvement has its effect for the benefit of the workers.

There is a steady increase in the number of cigars and cigarettes that are smoked in this country, and notably in the consumption of cigarettes, according to a tobacco trade journal. During the fiscal year just closed there were sold in the United States 3,333,845,560 cigarettes, and 4,130,440,370 cigars. The increase in the consumption of cigars over the previous year was 68,522,938.

The editor of a Georgia paper speaks as if he had experience. He says: "Editing a newspaper is a funny business. For instance, if you give a fellow a 'nice notice,' he never sees it, and so far as showing his appreciation he 'never hears tell of it.' But just say something 'agin 'im,' and he will pursue you to the end of the world. A fellow who don't care much about eating can have a picnic running a newspaper."

The Indianapolis News of last evening contains quite an interesting political letter from Fort Wayne, in the course of which the correspondent says: "As might be expected, there are not a great many Harrison men here. The republicans here seem to have great admiration for Reed. There is not much talk of the governorship among the republicans, as yet. Most of the time seems to be taken up in talking against Michener. I believe that if he were called Mr. Michener here, the man who called him so would be knocked down. Fort Wayne will have a candidate for governor in the person of Charles E. Everett, chairman of the republican county committee. He has as yet announced himself to only a few intimate friends. So far as I can learn, the choice of the democrats for governor is Tom Taggart, of Indianapolis. When I say anything about Mr. Shanklin the democrats just laugh. Shiveley, of Wabash, has a good many friends here, and it might be possible that there will be a democratic candidate picked out, but it is doubtful if there could be found a man who would take it against Taggart."

Thornton R. Prime, of Dwight, Ill., in a letter to the New York World, has the following concerning the corn crop: "In twenty-five years' experience I have never seen anything like the pospects of the growing corn crop of 1895 Under present conditions you can look for a harvest of over 2 000 0000,000 bushels of corn in the United States. This ought to be worth on the farms of the country, on an average, twenty-five cents a bushel, or $500,000,000. If the European grain crop is short, and the English harvest is known to be so, our exports will be enormous, causing a balance of trade in favor of the United States. The corn crop will not be thrown upon the market at lower prices than twenty-five cents a bushel. Arrangements are being made now to assist such farmers as are obliged to sell. I believe that 1896 and 1897 will see a wonderful stimulus in the way of home improvements, new enterprises, and a general development among the American agriculturists, to an extent we have not known for many years. The great west will prosper if the crops suffer no injury in the next four weeks. In a word, we are not only going to see good times, but the best we have ever seen in our history as a nation."

Public Spirit In Rural Districts.

The editor of The New England Magazine exhorts country neighborhoods to wake up and make the landscape beautiful, the people wise, handsome and public spirited. Among other agents to this end none is more powerful than the public school, which ought to turn out every year noble, intelligent young citizens. The editor says:

> Two things must tend to make the common schools of the country better nurseries, in the one case, of public spirit and, in the other, of interest in country life—the extension of the study of our national history and of civil government and the new attention which is being paid to nature studies. Too little has been done by the country schools in the past to open to the country boy and girl the beautiful secrets of their environment. Sympathy and sensitiveness have led this one and that into companionship with the birds and the woods and have made naturalists of some. But every country child should be taught enough of botany and geology, of the science of the soil and the things that grow in it, of plant life and animal life, to make his world more eloquent and didactic and beckoning than it usually is. We wish that every country schoolhouse in the future might be set in a garden and that everything in farm life might become science before it has a chance to become drudgery. Each town should have its little natural history museum, where every local rock and tree and fern and flower and beast and bird should be represented, and school should vie with school in making contributions. There should be closer touch between the various district schools and once a year at least a common festival at some common center.

The illuminant of the future is either electricity or the new gas, acetylene, probably both. Later experiments with acetylene prove all the merit at first claimed for it. A given volume of it will produce 4½ times as much light as the same volume of coal gas from the most approved burner. The acetylene throws off only four-fifths as much carbonic acid as the coal gas does and only one-sixth as much water. Finally it requires in combustion only half so much oxygen as the coal gas does. It will be seen, therefore, that it poisons the air far less than ordinary illuminating gas does. To all these advantages is added the fact that the acetylene can be made more cheaply than the coal gas. Apparently the gas companies will therefore consult both their own interests and those of their customers by initiating at once experiments looking to the substitution of acetylene for ordinary coal gas. The new gas can be liquefied readily, and with proper care can be conveyed in this form to private dwellings in the country and to other places out of reach of gas pipes. When the pressure is removed, the fluid becomes gas again and burns as such.

The most deadly weapon of modern warfare is the new Maxim rifle. A single soldier can carry it, and it weighs 40 pounds. In one minute it will send 600 bullets through 40 inches of oak. When the armies of the world are equipped with this gun, war will be quick work, unless the contractors who furnish army supplies can manage to lengthen it out.

A Young Marauder's Fate.

The shooting of a thief by Miss Flagler in Washington is a most melancholy and unfortunate affair. Yet to those who understand what it is to be a suburban resident with insufficient police protection the wonder is that there is not more shooting done instead of less. Washington is overrun with an idle colored population. They swarm like flies in almost every part of the city. There is not work enough for them all in that town of boarding houses and government clerks. They must live somehow, or they think they must, and many of them do live by preying on the white residents. In summer no garden, field, orchard or lawn is safe from them. They steal all they can lay their hands on and destroy in sheer wantonness unripe fruit, melons and vegetables. That at length Miss Flagler was rendered desperate by the hoboes and shot to frighten them, shot with a real bullet, is sad enough, but it will not surprise any one who has been subjected year after year to the same provocation. If colored people or white people do not want their offspring to be shot at, let them teach these youths to keep out of orchards and gardens and hen roosts where they have no right.

In such districts as the one in which the Flagler home is situated scarcely a peach, or a melon, or a pear, or an apple is ever allowed to ripen. The people to whom they belong and who have planted and tended them seldom get any benefit. If they contest their rights to their own property with the desperate young hoodlums who take possession, they get back only defiance, impudence, obscenity and profanity, and the onslaught on the orchards and gardens is redoubled. Fences are broken down on suburban farms, cows are milked, valuable young trees are broken off in sheer viciousness, and occasionally barns and outbuildings are fired. The robbing of poultry houses is a matter of such common occurrence that it is rather looked for.

No such lawlessness exists in any other civilized country, and it is time to stop it in this one. The law ought to stop it, but if the law does not then the solemn, moral sentiment of virtuous people who have no gardens or farms will be shocked occasionally by such incidents as the one at Washington. It is the parents of the young desperadoes who are most to blame.

It is by no means impossible that the emperor of Germany will run his head into a war of some kind yet in spite of everything. Germans complained of the sulky attitude of the French naval officers at the opening of the Baltic canal. But suppose France had been the victor and had captured a good slice of Prussia and kept it and forced Germany to pay an indemnity besides. Is it likely that German officers would have felt very jolly or festive in being forced to assist at one of the triumphant celebrations of the French, even 25 years after their country had been stripped of two of its fairest states? The probability is that they would not have been even as polite as the French were at Kiel. In celebrating the twenty-fifth anniversary of the battle of Sedan, Sept. 2, with unnecessary fuss and feathers, William and his advisers do a foolish thing. They will enrage the French all over again, and France is now in close alliance with Russia, the very union which Bismarck strove during all his political life to prevent. Germany has the substantial fruits of the victory. She can afford to be generous and pass the date of the great battle quietly over. Germany's wisest policy will be to conciliate France.

A recent writer, who perhaps knows, says that a pecan orchard is better than bank stock or a gold mine. According to his computation an acre of pecan trees will yield to its owner $2,500. Pecan nut cakes are becoming a very popular edible, and one firm makes 50,000 pounds of them every year. The writer says, moreover, that the hardy upland pecan will grow in any part of the United States. This may be true, and if true it is an easy way to make a fortune. But there are pecans and pecans. Only those from Texas bring the highest price. The little pecan nuts often put upon the market, with their twisted up kernels so imbedded in the convolutions of the shell that it is almost impossible to get them out, are a fraud. Give us the nut with the big, smooth kernel, and we will buy it and contribute to the grower's fortune willingly.

Theodore Roosevelt's gospel is that work is the thing for all, rich and poor. For the poor this work must necessarily be money getting for themselves. For the rich it should be work for the advancement of civilization and progress and the alleviation of the wrongs and miseries of society. Mr. Roosevelt is eloquent in the following: "I have preached first and foremost to be American, heart and soul, and to go in with any person, heedless of anything but that person's qualifications. For myself, I'd work as quick beside Pat Dugan as with the last descendant of a patroon. It literally makes no difference to me so long as the work is good and the man is in earnest."

Forty years ago Japan had no ships larger than those carrying 76 tons and having one mast. It was the policy of the government to keep the people at home. Now Japan is teaching all the world lessons in naval warfare. The wonderful little brown men have progressed just that rapidly in 40 years. Japan is going to spend a large portion of the Chinese indemnity in improving her navy and increasing it. When the projected changes have been made, Japan will be really one of the most formidable naval powers in the world. Some of her new cruisers will probably be built in America.

It must have been a gorgeous and impressive sight, that enthusiastic and tremendous celebration of the American Fourth of July at Yokohama. All the nations represented by men-of-war in the harbor joined in, the English as heartily as any. Yokohama bands played American airs on the streets all day long, and "Marching Through Georgia" was the favorite. The fireworks display, from barges in the harbor, lasted three hours. This was better than we do at home.

In the mining war in Illinois between Italians and negro laborers it would be interesting to know with which side a majority of the white people of the state sympathized.

CAMPBELL!

(*Continued from first page.*)

favoring the seating of the free silver or anti-Brice delegates, for the majority report that seated the gold or Brice delegates. The result was announced as follows: Ayes, 274½; nays, 446½. As the Brice delegates from Clark county already held seats under the report of the committee on credentials, there was no chance in this case.

This vote of the Clark county contest did not have any issue in it other than that of the silver question, and it was generally regarded as a test of strength on the majority and minority reports on resolutions.

The report on credentials, as amended, was then adopted, the only change being in Cuyahoga county.

The report of the committee on permanent organization, continuing the temporary officers, was adopted. The report was made by Judge J. G. Meiser, a free silver man, who put the motion and congratulated the free silver men that they controlled the convention for the minute that he presided.

Senator Brice returned his thanks for the double honor conferred upon him and then the report on rules and order of business was adopted. Ex-Congressman John F. Follett, of Cincinnati, had an amendment adopted limiting any debate to twenty minutes on each side, with a view to preventing a protracted debate on the resolutions. Ex-Congressman Frank Hurd, as chairman of the committee on resolutions, offered the following report, adopted by a vote of 19 to 2 of the committee:

The democratic party of Ohio in convention assembled, points with satisfaction and pride to the wisdom of the action of that party in the last two years and the results accomplished by it according to its promises, to wit:

The repeal of the republican legislation known as the Sherman law, the un-American federal election law, and the McKinley law, which repeals have resulted in returning prosperity to the country to such an extent that even the republicans are obliged to recognize the same.

We congratulate President Cleveland and his efforts in favor of the repeal of these vicious laws and upholding of the credit of the country which have been successful.

We congratulate our senator, Hon. Calvin S. Brice, for the earnest and effective support he has given to the president in these matters. When we consider the fact that the democratic party received from the republicans in 1892 a bankrupt treasury; that it inherited from them the vicious currency and tariff laws which had prepared and finally produced the panic of 1893, we insist that it is entitled to the thanks of the people for having attacked and repealed these laws.

We reaffirm that portion of the seventh plank of the platform of the last national democratic convention: "We hold to the use of both gold and silver as the standard money of the country and the coinage of both gold and silver without discrimination against either metal or charge for mintage; but the unit of coinage of both metals must be of equal intrinsic and exchangeable value or be adjusted by international agreement, or by such safeguards of legislation as shall insure the maintenance of the parity of the two metals and the equal power of every dollar at all times in the payment of debts, and we demand that the paper currency shall be kept at par with gold redeemable in such coin." We insist upon this policy as necessary for the protection of farmers and the laboring classes.

We call the attention of the people to the methods and practices by which the republican party in this state has managed affairs in the last few years, and as an example point to the party in Hamilton couty and the final culmination of the same in the Zanesville convention, which we intend by our votes this fall to put our condemnation on such practices.

We denounce the last legislature as corrupt and unworthy of the confidence of the people and we submit to the voters whether they wish to perpetuate this condition of affairs by placing the republicans again in power.

We view with alarm the large increase of indebtedness throughout the state by counties and municipalities as authorized by the last legislature and the increase in the last few years in taxes and we demand economy in expenditure and conservatism in the increase of debt.

Judge Patrick, from the committee on resolutions, offered the following minority report:

"We demand the immediate restoration of the law providing for the free coinage of both gold and silver without discriminating against either metal as provided for in the constitution and without waiting the assent of England or any other foreign nation."

Notwithstanding his declarations to the contrary, it is understood this afternoon that ex-Governor Campbell will be nominated by acclamation and that he will not decline, but personally he protests at every inquiry made as to his purposes.

The time had not all been taken for the majority report when the roll of counties was called on substituting the minority report for the majority report on platform The result was as follows: 270 ayes, 290 nays. The majority report was then adopted without calling the counties. In the call, the Cuyahoga county delegation, which had just been seated, cast its fifty-nine votes solid for the minority or free silver report. The Brice men claim that a test of strength in the state on the silver question alone would find the fifty-nine votes of Cuyahoga county divided in favor of honest money. The vote on the minority report was, however, generally considered a test of strength in the state on the financial question.

CAMPBELL NOMINATED

Before and after 2 p. m. motions for recess were voted down amid cries for Campbell. And when nominations were called for Mr. Campbell took the floor to head off the calls for himself and to present the name of Judge Hiram D Peck, of Cincinnati for governor. He said the conditions were national as well as in the state and said the democrats could win this year as well as six years ago. He was interrupted by Dr. James A. Norton, who precipitated a motion to suspend the rules and nominate James E. Campbell. Mr. Campbell thereupon protested and raised points of order amid the wildest scenes and cheering and yelling for Campbell.

Governor Campbell said he had run for congress three times in a republican district and twice for governor in a republican state, till he was depleted financially and otherwise unable to make the race for governor. He insisted on the nomination of Judge Peck or some good democrat who could make a good race and afford to make it. Seconds for the nomination of Campbell rolled in. Chairman Brice insisted that the motion of Dr. Norton to suspend the rules and the nomination of Mr. Campbell was in order.

Mr. Ingalls, who previously opposed Campbell, made a strong plea for him as the winner. The motion of Dr. Norton was put, carried with a great whirl of enthusiasm and the chair declared Mr. Campbell the nominee for governor.

President Ingalls and Dr. Norton escorted ex-Governor Campbell to the platform, where he received a grand ovation, and said:

"Mr. Chairman and Gentlemen:

"I received the announcement of this convention with mingled feelings of surprize and regret. A good soldier may fall, but he dare not falter. I promise not to falter, and it is for you to say whether in the end I shall or shall not fall."

Hon. John B. Peasley, of Cincinnati, ex superintendent of public schools and ex auditor of Hamilton county, was nominated for lieutenant governor by acclamation.

For supreme judge, H. W. T. Mooney, of Mansfield, Richland county, and Wm. B. Shroder, of Gallapolis, for state treasurer. Both were nominated by acclamation.

Geo. A. Fairbanks, of Columbus, was nominated by acclamation for attorney general.

Harry B. Keeler, of Tuscarawas county, was nominated for member of the board of public works.

J. W. Cruikshank, of Troy, for clerk of the supreme court by acclamation.

With a series of resolutions of thanks the convention at 2:40 adjourned.

The nominations were all made in about half an hour.

A NEW DYSPEPSIA CURE.

Over 6,000 People in State of Michigan Cured in 1894 by this New Preparation.

Stuart's Dyspepsia Tablets, the new discovery for stomach troubles, is claimed to have cured over 6,000 people in the state of Michigan alone in 1894. These tablets have become so popular with physicians and people who have any form of indigestion that they have the endorsement of such physicians as Dr. Harlandson and Dr Jennison as being the safest, most reliable remedy for sour stomach, chronic dyspepsia, gas, bloating, palpitation, headache, constipation, and in all cases where the appetite is poor or the food imperfectly digested.

It is safe to say that Stuart's Dyspepsia Tablets will cure any kind of stomach trouble except cancer of the stomach. They are not a secret patent medicine but composed of vegetable and fruit essences, pure pepsin, Golden Seal, ginger and the digestive acids. They are pleasant to take, can be carried in the pocket, and they cure because they digest the food promptly before it has time to ferment and poison the blood.

Druggists everywhere sell Stuart's Dyspepsia Tablets, full sized packages, at 50 Cents. A book on Stomach diseases and thousands of testimonials sent free by addressing The Stuart Co., Marshall, Mich.

KENTUCKY TOW.

Likely to Be Much Worn Next Year. Cheap and Cool.

Kentucky man in town. Shook him by the hand and asked him, "Do you feel as cool as you look?" and he answered, "Never was more comfortable in summer in my life." "What's that suit made of you have on?" said I. "Kentucky tow," was his answer. "The woof is hemp and the web is cotton. Up north here we call it 'grass cloth,' and next season it will be all the rage. I'm in the business of manufacturing it, and today I took an order for 20,000 yards of it. You can make it coarse or fine, just as you want, and call it 'Russia crash,' or any other title that is foreign or fetching, but after all it's just old Kentucky tow and nothing else. What do you suppose this suit stands just as I am wearing it?"

"Couldn't guess for the life of me," I replied. "I'm no judge of goods of the kind. I suppose $18 or $20."

"Three dollars," said my friend. "Of course that's counting the material at actual cost price and the making at manufacturers' rates. A suit like this can be sold by the retail trade at $8 and yield a fine profit. Next season the ladies will be wearing it for outing suits and skirts as well as the men. Will it wash? Of course it will, but it doesn't show dust and doesn't get dirty any sooner than a light woolen suit, so that it won't require washing more than once or twice in a season. Believe me, next season every well dressed lady and gentleman will have at least one grass cloth suit in her or his wardrobe, and the demand for it is going to make the hemp trade of Kentucky mighty lively. Evidently Kentucky tow is a good thing, and so I push it along."—Thistle in New York Journal.

WILL STUDY OUR CROPS.

Agricultural Attaches to Be Sent by European Governments.

Several of the European governments have decided to send to their embassies or legations in this country what they term "agricultural attaches." Such an attache will be expected to keep his home government informed not only as to crop conditions, prospects and prices in the United States at regular intervals, but also to keep his people posted as to progress in all agricultural methods and improvements from time to time.

Germany is the first to send an attache of this sort, who arrived in Washington a few days ago. His name is Beno Reinhardt Freiherr von Herrman. He is a baron, although an agriculturist, so that he will no doubt be welcome into official society this winter despite his long name.

It is understood that both the English and French governments will soon follow the example of Germany and send an agricultural attache to their embassies here, and Secretary Morton now thinks that it might be wise on the part of our government to return the compliment by sending some of our most practical and successful farmers abroad in place of the few military and naval attaches who presumably adorn the diplomatic service of the United States.—Chicago Times Herald.

Negro National Convention.

James W. Poe, president of the National Republican Vigilant association, which has issued a call for a negro national convention to meet at Baltimore Wednesday, Oct. 9, is receiving encouraging reports from different states.

New York, Maryland, Pennsylvania, Virginia, West Virginia, Tennessee, South Carolina and Georgia will be represented. The indications are, he says, that the convention will be very largely attended.

President Poe will invite a number of prominent colored men to deliver addresses before the convention on some of the subjects outlined in the call.

THE KNIGHTS' TRAIN

Left Here With Nearly 100 Passengers.

A Compliment to the Engineers' Wives —Pullman and Wagner May Combine—Local Gossip.

Probably the largest long distance excursion party that ever left this city was that of the Knights Templar, which left on a special train over the Wabash at 8:07 o'clock this morning, bound for Boston, Mass., where the triennial conclave will be held next week. It was expected that the party would number about seventy-five persons, but after the train had departed and Mr. Douglass footed up the cash receipts he found that he had sold nearly 100 tickets. The train was manned by Knights Templar, the crew being Conductor A. M. Prince, Engineer C. W. Hubbard, Fireman J. H. Walters and Brakeman H. O. Wells. It consisted of two Wagner sleepers, one coach and one baggage car and was hauled by engine 51. It was seven minutes late in starting, some of the knights being late in reaching the depot, but it was turned over to the Lake Shore at Toledo promptly on scheduled time, 11 a. m. Among those who left on the train were Messrs. and Mesdames William Geake and daughter, C. E. Read and daughter, C. W. Edsall, J. C. Craig, George Reiter, G. W. Pixley, M. L. Jones and daughter, Willis Hattersley, W. J. Probasco, S. M. Mahurin, George Gale, J. W. Hayden and son, A. W. Heit, Edward Seidel, J. C. Peltier, Fred J. Miller, A. J. Barnett and daughter, Charles Wilkins and sister, A. Hattersley, Miss Kittie Hattersley, Mrs. Chas. Colerick, Mrs. David Robbins, Miss Herbert, Miss Wolford, Messrs. H. C. Hanna, A. B. White, Gus Rabus, W. H. Shambaugh, J. H. Bodson, H. F. Altevought, A. Bruder, L. Rastetter and Ralph Chapin, all of Fort Wayne; Messrs. and Mesdames J. H. Eichhorn, Fred Stevens, A. Oppenheimer, W. COMPLIMENT TO THE LADIES' AUXILIARY.

In an item concerning the Grand International auxiliary of the Brotherhood of Locomotive Engineers, which held a meeting in Pittsburg last week, the Post of that city said: "The ladies are all good looking and highly educated. They take a deep interest in their organization, and attend all the regular and special meetings, sometimes going hundreds of miles to participate in the discussions that arise when matters of importance are before the department." The headquarters of the auxiliary are in Chicago, and its officers are as follows: Mrs. W. A. Murdock, of Chicago, grand president; Mrs. G. E. Cassel, of Columbus, Ohio, grand vice president; Mrs. George Brow, of Detroit, Mich., grand treasurer; Mrs. F. S Rowley, of San Francisco, grand conductor; Mrs. A. Eshrheart, of Rochester, N. Y., grand guard; Mrs. J. F. Cook, of Concord, N. H., grand secretary; Mrs. C. Durnell, of Fort Wayne, president of the insurance department, and Mrs. M. C. Orr, of Peoria, Ill., secretary of insurance.

A GENEROUS ACT.

The employes of the electric works are a generous, kindhearted body of men who are always ready to aid a needy brother. John Raber, the head of the family which has been so sorely afflicted of late with diphtheria, is an employe of the works and he has reason to remember his shopmates always with feelings of gratitude. This morning the men raised a handsome purse of money and sent it over to the unfortunate man. It was a generous act.

POSSIBLE COMBINE.

A Chicago dispatch says: It was reported today on what appeared to be excellent authority that negotiations are now pending for the consolidation of the Pullman and Wagner sleeping car companies. The overtures for the consolidation are said to have come from the Wagner company. George M. Pullman denied that there was anything in the story as far as he knows, but to some of the railroad men the denial is regarded as a diplomatic one, they claiming that neither party to the alleged consolidation will admit it until it has been carried through.

BRIEF MENTION.

Nickel Plate Brakeman F. B. Maxwell has resumed his train duties after a few days absence.

After a few days illness, Otto Stoll this morning resumed his duties in the Bass bluckemith shop.

Engineer C. Merritt and Fireman John Hood, of the Nickel Plate, are enjoying a few days rest.

The Bass Foundry and Machine Works shipped a twenty-five foot pulley to New Castle, Pa., yesterday.

William Krudop sprained his side badly while handling lumber yesterday. He is an employe of the Pennsylvania.

E. B. Moore, of the Pittsburg shops, has returned from Burgoon, Ohio, where he was visiting his mother, who is very sick.

F. Ruel Baldwin, eastern representative of the Bass Foundry and Machine works, is here on business with the firm.

The machinists and the painters of the Pittsburg shops, will play ball at Centlivre's park next Saturday afternoon.

John Rupert, formerly of the electric works, but now a resident of Plymouth, was the guest of Fort Wayne friends yesterday.

William McDonnell, jr., formerly of the electric works in this city, is now working for the Southern Electric company, of Baltimore, Md.

William Zutermeister, of the electric works, is keeping bachelors' hall at present, his wife having gone to Cincinnati to remain a week.

John Kirby, master car builder of the Lake Shore, has been in the employ of the company over thirty years, twenty years as master car builder.

The Nickel Plate has put three of its gravel trains in service again. They were taken off the road about a week ago on account of lack of motive power.

C. Auman, of the Pittsburg planing mills, had a foot badly bruised by a brake beam dropping upon it yesterday. He will be off duty for several days.

East bound shipments from Chicago last week amounted to 48,338 tons, against 46,418 for the previous week and 61,600 for the corresponding week of last year.

Herman Regel came home from the east last night and this morning with his family, went to Rome City to spend a week. Mr. Regel is a machinist and is employed in the Bass works.

James Costigan, clerk in the electric light offices, is enjoying his annual two weeks' vacation, and with his wife left for Cincinnati last evening, over the Grand Rapids and Indiana road.

Engineer J. H. Swartz and Fireman John McLaughlin, who had charge of Nickel Plate engine No. 23, have been assigned to No. 86 and given a through freight run on the third district.

The new scheme to insure baggage from loss by fire or other means while in the hands of a railroad company is meeting with favor. Several managers are said to have indorsed the plan.

General Superintendent A. W. Johnson and Chief Engineer G. W. Vaughn, of the Nickel Plate railroad, arrived in the city from Cleveland, Ohio, last evening. They come on an inspection trip such as is made at frequent intervals.

William Brossard, the well known blacksmith in the Pittsburg shops, came home on No. 9 last night. He spent two months in Germany, visiting the friends and scenes of his childhood. Next week he will resume work in the shop.

From Montpelier, Ohio, comes the news of the shocking death of Henry Wortsmith, a passenger conductor on the Chicago-Detroit line of the Wabash road. He missed his footing while trying to get on his train and was thrown under the wheels and beheaded. His body was also frightfully mangled.

During the month of July not a single dollar was paid out for accidental deaths by the Pennsylvania Voluntary Relief association. This is the first time in the life of the association that such a thing has happened. There were paid out in death benefits from natural causes, $6,750; for disablement from accident, $5,549.55; for sickness, $6,178 80, making a total for the month of $18,478 35.

Pittsburg Fireman Harry Polhamus is sick and off duty.

Master Mechanic F. W. Morse, of the Wabash, has returned from the east.

William Smith, agent for the Olds Wagon works, is moving his family into pleasant quarters on Butler street today.

An 110 light arc and an 80 light arc machine were shipped from the electric works this morning, being consigned to Chicago parties.

J. Bugnot, who was an assistant in the draughting room at the Pittsburg shops, has been transferred to the machine room as an apprentice.

W. T. Holmes, the man who was struck by an engine on Calhoun street ten days ago, is able to be on the streets again, though still a little lame.

John T. Leach, of the Pittsburg shops, has gone to Canton, Ohio, to attend a convention of the Sons of St. George, of which he is a prominent member.

Mr. Luther Wright, who had his foot crushed in the Wabash shops, is gaining slowly. Mrs. Wright was to have gone to visit him last week but was too ill to go.

The Vandalia company has contracted with the locomotive works at Schenectady, N. Y., to build four passenger locomotives of the most approved type, the engines to have a driving wheel six feet and one inch in diameter, twenty by twenty-four inch cylinders, and the weight on the drivers to be 85,000 pounds.

The class P locomotive, which the Pennsylvania is building for its type of 1895 at its shops in Juniata, has driving wheels 80 inches in diameter, boiler 60 inches in diameter, cylinders 18½x26 inches, weighs 134,800 pounds—14,400 pounds resting on the back pair of drivers, 47,200 pounds on the main drivers and 43,200 pounds on the truck.

NEW METHOD FOR BUILDING CROSSINGS.

A new method of constructing street crossings has been adopted by the Wabash company. A regular T rail is laid upon its side, with the upper or round surface inserted in the groved side of the rail forming the track and the flat or bottom part being placed snugly against the plank. By this means the snow and mud which falls upon the track is pushed out by the flanges of the car wheels, whereas, under the old plan, it was shoved down and under the planks, twisting and pushing them out of position.

AT HIGH NOON.

The Daughter of the Late Secretary Manning Weds.

ALBANY, N. Y., Aug. 21.—At noon today, in the Cathedral of All Saints, occurred the wedding of Miss Mary Elizabeth Manning, youngest daughter of the late secretary of the treasury, Daniel Manning, and Jules Cornelius Von Der Oudermeulen, son of the private secretary of Queen Wilhelmine, of Holland. The wedding was quiet because of the absence of any of Mr. Von Der Oudermeulen's family, the principal guests besides Miss Manning's immediate relatives being Mrs. Wallace Andrews, of New York; the bride's uncle, Mr. John B. Manning, and Miss Manning, of Buffalo; Mr. and Mrs. Fort, Mr. and Mrs. Wm. Van Antwerp and Mr. and Mrs. Fred Mix, all of Albany. The bride was attended by Miss Delhanty and the groom by Frederick C. Manning. A wedding breakfast was served after the ceremony at the residence of Mr. John Delhanty. Later in the day the bridal couple left for New York and on Saturday will sail for Holland. When they reach The Hague a second wedding ceremony will be performed by the burgomaster of the city. The bride will then be introduced at court.

WHEELS ON WHEELS.

LOCOMOTIVE TO RUN 90 MILES AN HOUR AND NOT TOUCH THE TRACK.

Driving Wheels Rest on Wheels That Rest on Other Wheels Which Ride the Track. Invention of a Minneapolis Man.

There is now being built at the Baldwin locomotive works, in Philadelphia, an ordinary locomotive with driving wheels of five feet diameter, which it is said will as soon as completed draw a train of cars from Philadelphia to this city in an hour, or just about one-half the time now required by the colossal and costly engines of the Pennsylvania road.

This claim is not made by the Baldwins. They have nothing to say on the subject. They are simply building the locomotive for private parties and are to receive their regular price of $10,000 for it. When it is completed, their part in the matter is ended. The gentleman who is paying for the locomotive is W. J. Holman of Minneapolis, an elderly inventor, who has been in the railroad business all his life and who has now invented something which, it is claimed, will completely revolutionize railroading.

It is not pretended that the ordinary $10,000 locomotive which the Baldwins are building would, if set upon any railroad track, be able to travel 90 miles an hour. The locomotive is not, however, to be set on the rails as engines generally are. When it is completed, it is to be placed on what are known as the Holman friction geared trucks, which will raise it 30 inches above the surface of the rails.

It will be just like any other locomotive except that each of its driving wheels will rest upon and between two smaller wheels, which in turn will rest upon and between three other wheels that finally rest on the rails. The instant the drivers of the locomotive begin to turn they necessarily through friction give an opposite rotary motion to the small wheels upon which they bear, and these small wheels just as necessarily give a forward rotary motion to the third set of wheels upon which they are bearing. The natural and inevitable result is that one revolution of the locomotive's driving wheels by this multiplicity of wheels in pyramid form carries the locomotive forward just twice as far as a single revolution of the driving wheels on the rails themselves. In other words, the speed of the engine, whatever that speed might be, on the rails themselves is exactly doubled by the use of this newly invented track.

In an experiment which was made with an ordinary locomotive thus mounted in Minnesota on a branch of the Northern Pacific railroad recently a speed of 80 miles was said to have been easily attained. The invention has been kept quiet, it being the purpose of those interested to say nothing about it until its practical utility was demonstrated by a run from Philadelphia to New York within an hour's time. That, it is believed by the inventor, will be the shortest and quickest way of letting the world know that a new marvel in mechanics has come into existence.

In addition to the increase of speed attainable this new invention will, it is claimed, save millions of dollars through the diminished wear and tear upon the rails, for the weight of locomotives will then be farther distributed along the track, and at no point of any rail will there be a pressure more than one-third as great as is now exerted by the driving wheels.—New York World.

A PRECIOUS VASE.

Doubly Fortunate Will Be the Man Who Shall Win It.

The proposed gathering of the surviving members of the Palmetto regiment at the Cotton States and International exposition will be an interesting occasion of some historical importance. After the battle of New Orleans General Jackson, who was a native of South Carolina, received from the ladies of that city a handsome souvenir vase as a token of their strong admiration of his great prowess in the war with Great Britain. On his death General Jackson willed the vase to the bravest soldier that South Carolina should send to the next foreign war.

The Palmetto regiment went 1,100 strong to the Mexican war, but only 300 survivors returned. A committee was appointed to decide which was the bravest of the 300, but where all were Spartans in valor the committee had a hopeless task. The vase then went into the possession of South Carolina, and the legislature then undertook to dispose of it according to the wishes of General Jackson.

The legislature finally disposed of the matter by deciding that the vase should go to the last survivor of the Palmetto regiment. There are now only 10 or 12 survivors, and their coming to Atlanta will bring a distinguished group of men. The vase will be exhibited and will be an object of great interest. It is of solid silver and beautifully embossed, being about 18 inches high. Judge J. J. Martin of Atlanta, one of the survivors, suggested the gathering, which will doubtless take place.

The vase was exhibited at the New Orleans exposition in 1884, when the number of survivors was several times its present number.

A HEAVENLY DISTURBER.

A Meteor the Cause of a Queer Legal Quarrel.

The great meteor which fell from the heavens some weeks ago near Gulf Summit is causing a queer legal muddle. The meteor fell on the land of Farmer Swackhammer, almost on the boundary line between New York and Pennsylvania.

The exact location of this state line has for many years been a matter of dispute, and the question has been brought to a focus by the falling of this meteor. Not only has the state line been in dispute, but the dividing line between Swackhammer and Farmer Littlejohn's lands, dependent upon the state line, has never been located. Pulling in the disputed territory, this meteor has brought about a legal battle, as both farmers claim it, while a third person claims it by right of discovery. Injunctions have been obtained by all three.

Meanwhile scientists have partly excavated the stone and have endeavored to determine its origin. It is claimed by one learned man that he has deciphered the cabalistic symbols with which it is covered. He asserts that a wonderful message is conveyed from an unknown world. A high fence has been erected around the mystery, and a guard night and day keeps all curious persons at a proper distance.—Atlanta Constitution.

Unlucky Family.

Mr. and Mrs. Charles Hitesman, an aged couple of Elkhart, Ind., have been peculiarly unfortunate with their children. Twenty years ago their son John was accidentally burned to death. In 1889 William was killed in a runaway. In a few months, James, while returning from a dance, jumped from a train at a crossing and received injuries from which he died in a few hours. A few months later another son, George, was injured by the explosion of a rotator in a paper mill, was confined to his bed for a year and left a cripple for life. The other day the other son, Aso, fell 40 feet from a tree and will probably die.—Chicago Times-Herald.

A Belled Crane.

The belled buzzard story has been changed a bit. From Pike county, on the border of the Big Sandy, comes a tale that a large white crane with a small bell attached to its neck has frequently been seen of late by farmers. Several attempts have been made to kill the feathered chimer, but it seems to bear a charmed life, and all bullets glance off its glossy coat.—Louisville Courier-Journal.

And Summer Is So Short.

The correspondent who complains that the boys and girls at seaside resorts are fast should remember that they are attired for speed.—Chicago Post.

HOME RULE IN CUBA.

The Cubans have formed a provisional government, with a patriot of wealth and standing, General Masso, as president. Now if they can win a few decisive victories they will be in a position to demand recognition as belligerents.—Minneapolis Tribune.

The serious question which is now confronting the Cubans is as to the best course of procedure in case they maintain their supremacy by arms. There are some disadvantages in the plan of a proposed republic. There is a very large negro population in Cuba, and with a general enfranchisement there might be a negro supremacy. Cuba as an independent republic would not necessarily mean the dominance of Cubans of unmixed blood.—Syracuse Post.

The election of a provisional republican government in Cuba and the appointment by it of a diplomatic agent for the United States mark a long step in the transition of the patriotic movement from that of insurrection to revolution, if it does not complete the metamorphosis. The Cuban party has gained steadily and at all points from the first act of overt resistance to the oppressive power of Spain to this formal declaration of independence and of autonomy.—Chicago Inter Ocean.

A Belated Crusader.

King Menelik of Abyssinia, according to Mr. Flad, a German missionary, is surrounded by French and Russian agents. He asserts that he will whip the Italians, and then crossing the Red sea will free Jerusalem as the direct descendant of David and of Solomon.—New York Sun.

For a Greater Germany.

The Lokal Anzeiger, a Berlin paper, strongly advises Germany to annex the grand duchy of Luxemburg, which, by the London treaty of 1867, was declared neutral territory, and to fortify the capital, so that Strasburg, Metz and Luxemburg will be impregnable fortresses.

He Can Keep Square.

The world is very much in a poor man's way, but he can't get around it.—Galveston News.

SIX MEN KILLED.

Three More Fatally Injured and Fifteen Seriously Burned

By an Explosion in the Carnegie Steel Works at Braddock—Property Valued at $30,000, Destroyed.

PITTSBURG, Pa., Aug. 20.—An explosion at furnace "H," of the Carnegie Steel company, at Braddock, at 5 o'clock this morning, killed six men, fatally injured three more, and seriously burned fifteen others. Property valued at $30,000 was destroyed. The names of the killed were:

Steve Herrels, cut in twain, thirty-two years of age, leaves a wife and two children.

Joseph Tuckay, thirty-two years old, burned, leaves a wife and four children.

Joseph Copp, burned, thirty-two years old, single.

John Meka, burned, twenty-five years old, single.

John Pookoluser, burned, twenty-five years old, single.

John Grucha, burned, thirty years old, single.

All were Poles and Huns, except Grucha, who was a German. Nine of the injured were brought to the Mercy hospital, in this city. They are reported to be resting easily.

Of the injured it is now believed that five will die. Their names are:

John Warha, inhaled the flames, married, two children. John Skonda, married. Mike Jure, married. Mike Kalenos, single. Andrew Drobne, single. These men were frightfully burned.

The following were seriously injured but will probably recover: John Wagsky, John Sebrorlay, James Harrison and two unknown men.

A number of others sustained slight burns and cuts by being hit by flying brick but they were able to go to their homes and their names could not be learned.

The explosion was due to a "hang" in furnace H, which suddenly loosened and dropped into the molten metal below, generating an immense quantity of gas so suddenly that it could not escape by the ordinary means and the explosion followed.

The terrible loss of life was due to a peculiar cause. A few minutes before the explosion occurred one of the top fillers dumped a barrow of material into the bell of the furnace, which he had forgotten to raise. This clogged the whole furnace and prevented the gas from escaping. A gang of sixteen men, in charge of James Harrison, were sent at once to the top of the furnace to remove the obstruction. All were closely crowded around the bell of the furnace removing the material which had been dumped on it, when there was a terrific explosion, and men, barrows, tools and material were hurled in all directions. Flames, deadly gases and smoke belched from the furnace top and the gang of men fell as if shot.

Only one man was killed instantly. He was blown from the furnace a long distance to the metal roadway to the elevator shaft, down which he fell, and striking on a car, was cut in two, one half of his body falling on one side of the car and the other half on the other side.

The explosion was heard all over Braddock and crowds at once rushed to the scene, but none expected to witness such horrors. A relief crew was quickly organized, which went to the top of the furnace, where lay fifteen men, bleeding, torn, burned and dying. The flames and smoke were still coming from the furnace and the work of rescue was dangerous in the extreme, but, covering their hands, faces and heads with cloths, the rescuing party went bravely to work.

The injured men were all leaning over the mouth of the furnace when the explosion occurred. Three men died before they reached the bottom of the elevator shaft and the other six died between 5 and 8 o'clock this morning. As the injured men were taken down from the furnace top they were removed to an improvised hospital in the company's office and the company's staff of physicians and medical aid from McKeesport and Pittsburg summoned.

Five of the men were so badly burned and terribly injured that the physicians did not deem it necessary to remove them to any hospital as death seemed inevitable in a few hours and no hospital could relieve their sufferings. Two of the men who were on top of the furnace when they reached the ground were revived and there being some hopes for their recovery they were taken to their homes.

The contents of the furnace were blown out and scattered for hundreds of yards around the furnace, falling in all parts of the yard, cutting and burning about ten men who were working below, but none were seriously injured. The firey shower fell on the carpenter shop of the company about 100 yards from the furnace, and it was soon in flames and was destroyed with its contents. The bell of the furnace was shattered and scattered; the roof of the cast house was crushed in and ruined. The contents of the furnace were scattered abroad, and the furnace is badly damaged and may have to be rebuilt. If this should be the case the total damage will be $30,000.

The Braddock fire department was called out and prevented the spread of the flames, and members also aided in the work of rescue and did police duty. The scenes as the men were carried to the office of the company were intensely exciting, and women and children rushed frantically from their houses, and the large force of policemen and guards was powerless to prevent them from rushing into the improvised hospital and deadhouse in search of some member of their families. Tears and lamentations, anxious faces and agonized expressions, wringing of hands and tearing of hair, were all witnessed around the scene of death and destruction, and the stoutest hearts were moved to pity. The homes of the killed and injured men were near the furnace and the street in that vicinity were filled with a mass of weeping, frantic, half crazy women and children, and that part of Braddock is, indeed, a house of mourning.

Two of the injured died after reaching the hospital, making the number of dead eight. The injured were burned so badly as to be beyond recognition and the identity of the two will not be known until the bodies and such portions of the clothing as remain in tact are viewed by their friends.

FIRE IN MUNCIE.

Blaze Threatened the Business Center of the City.

Stable With Two Horses and Other Property Destroyed—Thought to Be Incendiary.

MUNCIE, Aug. 20.—John Williams' stable burned, in the heart of the business center of Muncie, late last night. Two valuable horses, a carriage, buggy and much grain burned. A dozen big business blocks were in great danger and the electric light supply to scores of business houses was cut off. There is no insurance.

Before the fire was quenched the Calvert sisters' business block, on High street, was on fire. It was occupied by Franklin & Mahoney, proprietors of the Yorktown flour mill, as an exchange depot. Two horses and a lot of flour and 1,800 dozen eggs, with two horses owned by Charles Haxton, of Rochester, Ind., burned. The High street theater was badly scorched.

The police fear the fires were started by robbers attracted here to the fair.

LOCAL LINES.

THE FIGHT OF HIS LIFE

Being Made by Senator Brice in the Ohio Convention.

To Make the Buckeye Democrats Look Through the Same Financial Spectacles That He Sees.

SPRINGFIELD, Ohio, Aug. 16.—The district and other preliminary meetings of the democratic state convention were held here today preparatory to the assembling of the convention at 10 a. m. tomorrow.

Senator Brice reached Lima from New York yesterday and arrived here this morning. He is making the fight of his life for harmony with the views of President Cleveland, Secretary Carlisle and himself on the financial question. He is not taking an aggressive part for the nomination for governor or other offices, but is interested in the organization so as to control the committee of the credentials, which will determine the contests, and the committee on resolutions, which will report the platform. He is believed to have a majority of the 803 delegates with him, but the free silver men claim 400 of the delegates, or enough to make trouble in case concession is not made to them.

The delegates are here today and the question is as to what concession should be made to the minority, which claims to be over two fifths and almost one half the members of the convention. The Brice men are raising no objection to any of the free silver candidates, not even to Hon. John H. Thomas and Col. James Kilbourne, for governor, who they announce are both pronounced advocates of the free and unlimited coinage of silver.

John H. Thomas has opposed Senator Brice very strongly. But today Senator Brice, Ex Governor Campbell and other leaders dined with Mr. Thomas and it is understood that a compromise was outlined, but it will not be known what the leaders did until after their plans are developed in the convention tomorrow.

Senator Brice is the temporary chairman of the convention and his key note speech is sure to be for "honest money, without regard to the outcome of the fight tonight for the control of the convention. His speech will be of considerable length.

Immediately after its delivery tomorrow morning come the reports from the committee on credentials, the majority contesting for the seating of the Brice men, and the minority for seating the free silver contestants. In considering these reports the senator may have some close ruling and the silver men may get mad. It is at this juncture of the proceedings that the contest between the free silver and the Brice men is expected, although the latter have things their own way today.

Just before Senator Brice arrived at 11 a. m. the city was flooded with dodgers bearing the following resolution adopted at the meeting of silver delegates:

"We favor the immediate restoration of the law providing for the free coinage of both gold and silver coins and their use, without discrimination as provided for in the constitution."

The silver men met Senator Brice and pledged him they had no fight on him and all they wanted was this plank. The senator and his friends are non-committal and want all to wait for the regular report. On the arrival of the train bearing ex-Governor Campbell at noon, Campbell badges were distributed broadcast in anticipation of his nomination. All leaders and delegates arrived today.

DENVER DEAD.

When Complete the Roll Will Contain Twenty-Five Names.

DENVER, Col., Aug. 20.—Twelve bodies have so far been taken out of the ruins of the Gumry hotel, and it is evident that the death roll, when complete, will contain twenty-four or twenty-five names, possibly more. The dead already taken out and identified are:

Frederick Houbold, manager of the opera house, Lisbon, Iowa; Robert C. Greiner, manager of Gumry hotel; Mrs. Robert C. Greiner; James Murphy, contractor, Denver; George Burt, Rock Island railroad conductor; E. F. McCloskey, mine owner, Cripple Creek; Mrs. G. R. Wolfe, Lincoln, Neb.; child of Mrs. Wolfe; William Richards, elevator pilot; B. I. Lorah, Central City, Col.; Ferdinand French, treasurer of Gilpin county, Col.; Myron F. Hawley, Union Pacific railroad clerk.

The statement made yesterday that Mrs. R. C. Griener, one of the victims of the Gumry hotel disaster, was a daughter of Peter Gumry, who was also killed, proves incorrect. Mr. Gumry was never married and leaves no known relatives. He leaves property valued at $100,000.

Wants to Fight.

NEW YORK, Aug. 20.—John Valentine, an English pugilist, was one of the first cabin passengers of the Anchor line steamer Circassia, which arrived today. He has come to America with the intention of challenging "Jack" McAuliffe, the light weight champion of the United States. He hopes to make a match with the American for a fight, to take place either here or on British soil. He claims to have plenty of backing and is confident of his ability to vanquish his opponent.

Child Recovers at Its Funeral.

HUNTINGTON, Ind., Aug. 20.—A child of John Dill, of Rock Creek township, this county, died Saturday. It was laid out and all arrangements perfected for the funeral and burial. Before the time arrived for the funeral, however the child showed signs of life. Its body was well rubbed and wrapped in warm flannel, and it soon began to breathe, and is now in a fair way to get well.

SALOON TRAGEDY.

Theodore Matz Stabbed by the Man He Would Put Out.

The Bloody Affray Was the Outgrowth of a Quarrel Over the Price of a Drink.

NEW YORK, Aug. 20.—Theodore F. Matz, a saloonkeeper, at 517 East One Hundred and Seventeenth street, was stabbed in the abdomen shortly after midnight in his saloon. His assailant escaped. Matz's wound may prove fatal. The man who did the stabbing had ordered a glass of beer, for which he refused to pay. Matz tried to eject him and in the scuffle which ensued the man cut him with a knife, after which he fled. Matz gained some notoriety a few weeks ago by bringing to a test the police regulation under which saloons had been kept closed in the hour between midnight Saturdays and 1 o'clock Monday mornings.

OFF FOR HAVRE.

The San Francisco Takes to the Sea.

Her Present Destination is France, but She Will Ultimately Find Her Way to the Mediterranean.

WASHINGTON, Aug. 20.—Admiral Kirkland sailed today with the San Francisco for Havre, France, and it is possible that the cruiser may continue on to the Mediterranean, although it has been thought by officials here that the Marblehead would be considered sufficient to protect American interests. When Admiral Kirkland was in Asiatic waters before he made a careful report to the navy department upon the allegations that had been made of outrages there.

This report showed that while there were many rumors afloat as to outrages, such as the crucifixion of some persons, he was not able to find anyone who could give definite information as to any such affair or to definitely locate the place where the alleged outrage took place. It is said at the state department that Minister Terrell is taking every possible precaution to protect Americans and their property.

TRIAL RACES.

The Defender and the Vigilant Competitors

For the Honor of Racing the Valkyrie III for the America's Cup—Defender in the Lead.

NEW YORK, Aug. 20.—The first of the trial races of the yachts Defender and Vigilant to decide which shall contest with Valkyrie III for the America's cup, was sailed today. The course was ten miles south, southwest from Sandy Hook lightship which means a beat to and around a mark boat off Ashbury Park. The Vigilant had a lead of 57 seconds at the start. Vigilant rounded lightship at 2:06:40, four minutes behind, and pulled up one minute and seventeen seconds in the run home. After rounding, Vigilant stood away after Defender on the starboard tack.

RACE CALLED OFF.

HIGHLANDS OF NAVESINK, Aug. 20.—2:40 P. M.—Defender has eased of her sheets and is now running back towards Sandy Hook. The race has been called off.

THE MARKETS.

Chicago Markets.

CHICAGO, Aug. 20.—Wheat continued its decline today. Cables were lower, northwestern receipts were liberal and there was no outside trade. September opened ½c lower, at 64½c, sold from 64⅝ to 64¼, and reacted to the opening price.

Corn was weak on the more favorable weather. September opened unchanged at 38¼c, and sold to 38⅛c.

Oats were easy with corn. September opened ½c lower, at 19½c.

Provisions were firm on the firm live hog market. September pork opened 2½c higher, at $10.02½; September lard sold at $6.15, and ribs at $6.02½.

CHICAGO, Aug. 20.—Receipts, hogs, 14,000; left over, 1,000; good grades, 5@10c higher than yesterday's average; others slow and barley steady.

Cash wheat, 63c; corn, 37½@⅝c; oats, 20½c; pork, $9.95; lard, $6.15; ribs, $6.17½.

After a six weeks' visit with relatives at Chicago and Milwaukee, Miss Hannah Zauner has returned home.

MORA'S CLAIM.

It Will be Settled by Payment of Principal Only.

General Campos Will Pay Over the Amount in Spanish Gold Dollars at Havana, Cuba.

WASHINGTON, Aug. 20.—An agreement has been signed by Secretary of State Olney, Minister Dupuy De Lome, of Spain, Antonio Maximo Mora and Mr. Mora's counsel, providing for the settlement of the Mora claim on the basis of $1,500,000, on the 15th of September next. By the agreement the claimant waives all demands for interest and accepts the amount named as full satisfaction of the claim. This agreement was reached as the result of negotiations conducted between Minister De Lome and Secretary Olney, largely since their departure from Washington. The memorandum was signed one day last week, Mr. Mora and the attorneys being summoned to New England for the purpose of consultation and to attach their signatures.

There is only one point on which it appears possible that there may yet be a hitch. The Spanish government insists that the payment shall be made by Capt. Gen. Campos, in charge of the Spanish forces in Cuba, and that the money shall be transferred to Mora or his representatives in Havana. Mr. Mora does not accept this condition, and insists, as the settlement is the result of negotiations between Spain and the United States, that payment should be made either in Madrid or Washington.

The agreements provide that the claim shall be paid in Spanish gold dollars, which are of slightly less value than the American coin. International lawyers say that the instructions of contract contained in the resolution directing the state department to collect not only the principal but the interest on this claim is in no sense binding and that in case the point is raised in any way, it will be sufficient to show that Mr. Mora has the right to waive the interest.

WASHINGTON, Aug. 20.—Although the Mora claim has not been satisfied as yet by Spain there is already a prospect of litigation between attorneys and others having an interest in it. James E. Dexter has filed a bill asking an injunction to restrain Jos. P. Germuiller from transferring an interest in the fees which Nathaniel Paige, Mora's attorney, is to receive. The bill says that attorneys in the case are to receive forty per cent. of the $1,500,000 claim and the present suit grows out of an assignment of only a $2,000 interest in the fees for which $100 was paid in 1892.

PROSPECTIVE RIOT.

Whites and Negroes Again at War.

The Latter Will Seize the Polls if They are Not Permitted to Vote for Delegates.

ATLANTA, Ga., Aug. 20.—A special to the Journal from Ulmer, Barnwell county, says that rumors were current this morning that if the negroes were not allowed to vote at the election to be held today for delegates to the constitutional convention, they will seize the polls and vote at any cost. The white men are armed with Winchesters and shotguns and will resist any such effort.

LOYAL TO HER CONVICT LOVER.

William Mitchel and Lizzie Rogers Wedded After Five Years.

LEBANON, Ind., Aug. 20.—After five years of patient waiting, William Mitchel, an ex-convict, weds Miss Lizzie Rogers, of this city. Mitchel was arrested on a charge of larceny and incarcerated in the county jail to await trial, and it was then that he first met Miss Rogers, who was acting in the capacity of chief cook at that place. As Mitchel was possessed of a good education and was attractive, he soon gained favor with Miss Rogers and a courtship under difficulties began. Mitchel was tried and convicted and sentenced to seven years' imprisonment, but by good behavior was liberated in five years. Miss Rogers, however, after spending the greater portion of her earnings in his behalf, was daunted not in the least. She continued to use every means she had to procure his liberty, but without avail. Out of her little earnings she would purchase dainties and send him. Mitchel was liberated Saturday and at once proceeded to the quiet little cottage of his betrothed, and at high noon yesterday they were married.

NAILS WILL GO UP.

Likewise the Wages of the Men Who Make Them.

PITTSBURG, Aug. 20.—The National Association of Wire Nail manufacturers is meeting here today to consider the advisability of advancing the price of nails from $2.15 per keg to $2.25. Trade was reported brisk. No action had been taken at noon, but a prominent manufacturer stated that the advance would very likely be made. If the prices are advanced, it is said, the wages of the wire nail workers will be increased.

MISTAKE SOMEWHERE.

The Report of a Bad Wreck Denied by Railway Officials.

JEFFERSONVILLE, Ind., Aug. 20.—A bad wreck is said to have occurred on the Baltimore and Ohio Southwestern road about sixty miles from here this morning. Four passengers and the engineer are reported killed.

CINCINNATI, Aug. 20.—The superintendent of the Baltimore and Ohio Southwestern says trains are all on time. No report of any wreck on their line.

KEEPING UP!

Maggie Kline Wants a Divorce From William Kline.

But There Were Three Marriage Licenses Granted and That is a Gain for Matrimony.

F. H. Kleekamp, as attorney for the plaintiff, has begun an action in the superior court asking that Maggie Kline may be given a divorce from her husband, William Kline. The parties were married on the 20th day of July, 1893, and before a month had elapsed the defendant abandoned the plaintiff and since that time has made no provision for her support. She does not now know where he resides. The plaintiff is a stenographer residing in this city.

Edward Lautermier and Anna Koch, Julius Gaenge and Katie Werkman, Geo. W. Cummings and Lillie M. Powell have been licensed to wed. The latter couple were married last evening by Justice Harry F. France, at their home, on Barthold street.

The case of John Dorris, who was charged with stealing a suit of clothes and some other articles from a roommate, was given a preliminary hearing in Justice France's court yesterday and he was bound over to await the action of the grand jury in the sum of $400.

Justice Huser fined Wm. Diedrich for assault. Joe Van Horne was acquitted.

Justice Bohen is hearing the Somers case this afternoon.

THE ELECTRIC ROAD.

Commissioners of Whitley County Give it a Franchise.

And it Will Be Built From Fort Wayne to Everett Lake and Then to Columbia City.

The county commissioners of Whitley county have granted a franchise to the Everett Lake Electric Railroad company for the building of their line of electric railroad from Columbia City to the Allen county line and the city council of Columbia City will meet tonight for the purpose of granting the company the franchise to build a road into that city. It is the intention of the company to push the road right on to Columbia City soon after it is built to Everett lake.

THREW THE SWITCH

Wrong and the Train Jumps the Track.

The Engineer is Instantly Killed and Five Passengers are Injured.

LOUISVILLE, Ky., Aug. 20.—News was received here of a bad wreck on the Big Four, near Lawrenceburg, Ind., this morning. The engineer was killed. The accident occurred at 6 o'clock this morning. The operator threw the switch wrong and the engine and six cars were ditched. Five passengers were injured. The train was on its way from St. Louis to Cincinnati. No names were given.

THE HOLTHILL REPORTS.

Reaches Queenstown in Safety After a Long Voyage.

PHILADELPHIA, Pa., Aug. 20.—A cablegram to the Maritime Exchange announces the arrival at Queenstown today of the bark Holthill, from San Francisco. This is the vessel which it was feared was sunk with all on board in a collision in midocean on July 14, by the steamship Prince Oscar, which also foundered. The Holthill left San Francisco in April and was due at the scene of the disaster about the time of its occurrence. The news of the safe arrival of the Holthill renews the conjectures as to the identity of the unknown vessel sunken.

THE SEVENTH ARREST

In Connection With the Chicago Bedding Company's Fire.

KENOSHA, Wis., Aug. 20.—Another arrest has been made in the arson and conspiracy case in connection with the burning of the factory of the Chicago Bedding company.

The prisoner is Bernard Hufler, a wealthy Chicagoan. This makes seven men now under arrest on the same charge. The police are after two more Chicago men.

ON A STRIKE.

The Mill Workers of Dunder Leave Their Posts.

DUNDEE, Aug. 20.—Without waiting for a reply to a demand for an increase of ten per cent on their wages, the mill workers here have begun a strike. The mills are closed and 7,000 hands are idle. The mills and manufacturers at a meeting this afternoon decided to refuse to grant the increase. A general strike is expected tomorrow.

PULLED THE FIRES.

The Mining Companies Carry Out Their Threats.

ISHPEMING, Mich., Aug. 20.—The Lake Angeline and Cleveland Cliffs companies today pulled the fires from under their boilers preparatory to an extended shutdown. The mines are fast filling with water. The strikers held a meeting today, but the attendance was small.

Mr. and Mrs. John Bostick, of 130 East Wayne street, have issued invitations to a large reception to be given September 2, the twenty fifth anniversary of their marriage.

WITH A RUSH.

A Large and Enthusiastic Meeting at the City Hall.

Fort Wayne Will Celebrate Her Centennial—Not Next Year but in October, 1895—A Sure Go.

The promoters of the centennial celebration were more than pleased at the large turn out of citizens at the city hall last evening. The project is growing in favor and before this week is over the plans will all be made and a grand four-days' jubilee in sight. Every citizen in Fort Wayne should feel him or herself personally interested in the success of this undertaking, as it means the bringing to this city of thousands of visitors, every one of whom will spend money. Not only this, but city pride should stimulate everyone to activity and we should not allow so important an event to pass by unnoticed.

Last night a permanent organization was effected. P. A. Randall was selected permanent chairman and Maj. J. E. Miller secretary. Mr. Randall stated that he was certain $10,000 could be raised and that easily. He began to make a rough estimate as to where the money was to come from, and before he had concluded everyone in the hall had agreed that the money could soon and easily be raised.

Many were present last night who were not at the meeting last week and among the number called on to speak were Hon. S. M. Foster, Dr. C. B. Stemen, Adolph Diamond, A. I. Friend, Anselom Feabler and others.

Charles Archer moved that the chairman appoint a board of thirty-five directors. This motion being seconded, Mr. Randall said that in the course of the deliberations of the committee appointed last week, this subject had been canvassed and before putting the motion, he would read a list of thirty-five names that had been suggested after some consideration and that the vote could then be taken direct upon the names presented. The following is the list:

BOARD OF DIRECTORS.

C. F. Muhler, Charles McCulloch, S. M. Foster, Louis Fox, J. H. Bass, S. F. Bowser, J. B. White, R. I. Romy, A. E. Hoffman, S. C. Lumbard, J. C. Peters, C. S. Bash, William Geake, George W. Pixley, E. F. Yarnelle, A. I. Friend, E. C. Rurode, S. B. Bond, L. A. Centlivre, W. L. Moellering, C. A. Knight, Gottlieb Heller, C. E. Reese, E. L. Siver, R. B. Hanna, Theo. Frank, S. R. Alden, J. M. Barrett, W. H. Shambaugh, B. W. Skelton, W. W. Mungen, Willis Hattersley, Ed Gilmartin, A. H. Dougall, H. C. Graffe.

This list was unanimously indorsed.

This board is to meet at the city hall tomorrow evening. To them is committed the supervision of the entire celebration. In view of the short time that remains for the work a committee on ways and means, numbering nearly 200 prominent citizens, was appointed. The secretary was instructed to notify each by postal card. They will also meet tomorrow night and, as their names represent, as do those of the board of directors, the wealth and enterprise of the city, Fort Wayne is sure of a centennial celebration worthy of the occasion.

Every member of these committees is expected to be present at the city hall tomorrow evening.

ABOUT FLOWER SEEDS.

When They Should be Sown to Obtain Best Results.

Many people make the mistake of sowing all kinds of flower seed in the spring of the year and are frequently disappointed in the results. The seeds of the following varieties, if sown in September, will produce early spring blooms and many of them should not be sown at any other time:

Abutilon, aconitum, adonis, alyssum, ampelopsis, anemone, antirrhinum, aquilegia, azalea, double daisy, canterbury bell, candytuft, carnation, centaurea, cryanthemum, cineraria, clematis, cobaea, cowslip, cyclamen, larkspur, foxglove, perennial pinks, ferns, gloxinia, edelweiss, heliotrope, hollyhock, moon wort, kenilworth ivy, lantana, lavender, lobelia, maurandia, mignonette, musk plant, morget-me-not, pansy, passion flower, petunia, polyanthus, primrose, pyrethrum, sweet rocket, smilax, stocks, sweet william, valerian, verbena and many varieties of sweet peas.

BOARD OF WORKS.

Independent Telephone Company Again Asks for a Franchise.

Charles S. Bash again appeared before the board of public works yesterday and asked for a telephone franchise. This is the company, mention of which was made in THE SENTINEL some months ago. Mr. Bash stated that no decided move would be made until the return of Mr. Henry C. Paul from Europe, thus conceding that gentleman's connection with the scheme. The board took no action for the present on the matter, deciding to consider the question before granting a franchise. Mr. Bash further said that the company would be in operation within six months of the concession of the franchise.

The question of opening up Fifth street came before the board and was continued until September 16.

Miss Mayhew, matron of the Hope hospital, asked the board to remove the drinking fountain in front of the hospital, as the noise of teams driving up was a source of annoyance to the patients. This will likely be done.

An application from Richard Ellison, asking to be appointed attendant at the crematory, was received and filed.

A resolution to pave with brick the alley between Lewis and Jefferson streets, was up for approval, but on account of a remonstrance from property owners affected by the improvement, action was deferred until the first meeting in January.

Other business of an unimportant nature was transacted.

THE ROBBERS JUMPED.

A Baker Street Resident Has an Adventure.

The Police Investigating Into the Metzger Robbery—Police Court —Other Jottings.

Burglars are still about the city and seem to be very industrious. Last night they were on Baker street and had to flee at a lively pace to avoid capture. During the night they entered the home of Henry Steinacker, the well known employe of the Fox cracker bakery, who resides at 22 Baker street. The family were awakened by a window being opened in the second story of the building and a few moments later footsteps were heard in the rooms above. Mr. Steinacker sprang out of bed and started up stairs. The burglars evidently heard him coming, for they jumped out of the open window onto the kitchen roof and thence to the ground. They had effected an entrance into the house by prying up the window, out of which they escaped. Nothing was found missing, as the burglars hardly had time to lay hold of anything.

HE PAWNS THINGS.

The young son of highly respected parents is in trouble, having recently carried a number of valuable articles to a pawn shop and raised some extra spending money. The officers are investigating.

POLICE COURT.

There were three cases on trial before Mayor Oakley this morning.

John Phillips, the man who killed Bud Green, was up on a charge of intoxication. He was arrested at No. 5 Columbia street, at the home of a relative. Phillips was raising a disturbance and threatening to hurt someone. He was sent to jail.

James Smith was drunk at the Berghoff park last evening and when remonstrated with struck one of the Berghoffs. This morning he was sent to jail.

About 7:30 o'clock this morning, on East Columbia street, Officer Hardendorf arrested a colored man who was carrying a number of packages of cigarettes and some plug tobacco. He was offering the cigarettes at two packages for five cents and the plug tobacco at a very low figure. For this reason the officer placed the man under arrest, suspecting the goods had been stolen. No evidence as to this fact could be brought out at police court this morning and the man was let go.

WILL COME UP AGAIN.

Tomorrow evening, so a member of the board of public safety stated this morning, Mrs. Hanna Egg will be called upon to testify in the Bowers case under oath. If nothing new can be obtained the whole matter will likely be dropped.

CASE CONTINUED.

The case against Neumier, the saloon man charged with violating the Nicholson law, was continued until Friday by the mayor, this morning.

ARE INVESTIGATING.

The police are this afternoon investigating a clue which may lead to the arrest of the robbers who entered the home of County Clerk Harry Metzger and carried off about $125 worth of plunder. It is said that a search warrant was sworn out and a residence searched. Many have come to believe that the recent burglaries about the city are the work of home talent.

WAS A ROBBER.

Late this afternoon it is learned that the colored man arrested early this morning by Officer Hardendorf is wanted for robbing a Nickel Plate freight car. The fellow left town at noon.

ROBBERY AT HILLSDALE.

Sheriff Clausmeier is looking for some robbers who are supposed to be here from Hillsdale, Mich. Last night they stole two bicycles, two revolvers and other goods at that city.

A BIG PARTY.

Seventy-five of Our People Leave for Boston Tomorrow.

THE SENTINEL has already published a list of the names of the people who will leave tomorrow over the Wabash for Boston to attend the national conclave of the Knights Templar and it adds today the following: A. B. White, Gus Rabus, Mr. and Mrs. W. J. Brobasco, Mr. Greer and Mr. and Mrs. Geo. Gale, of this city; Mr. and Mrs. Wagner, of Delphos, and Mr. Motzer, of Huntington. There will be seventy-five people in the party leaving here at 8 o'clock tomorrow morning, reaching Detroit at noon, Kingston next morning, Montreal via St. Lawrence river steamer that evening, thence on to Quebec, the White Mountains, Portland, Old Orchard Beach, etc., to Boston. Two Wagner palace sleeping cars will be in the train running through to Boston.

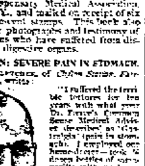

James Mitchell, editor of the Dispatch, had Officer Summers arrested on the charge of provoke. The case was continued by Justice Bohne until Saturday, at the request of the defendant.

THE STUDY — of the action of medicines, or vegetable compounds, upon the stomach, and tests in many hundreds of cases, long ago convinced Doctor R. V. Pierce, Chief Consulting Physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., that all cases of Indigestion, Dyspepsia and Liver Complaint could be cured permanently if the right treatment were given. In support of his belief that he had discovered an alterative extract which he called "Golden Medical Discovery," that would cure these diseases, he collected from all parts of the country the evidence of those who had used his medicine, and he has asked the public to investigate for themselves, as he would be glad to furnish the names and addresses of thousands of people who have used Dr. Pierce's Golden Medical Discovery. All interested should send for a little medical treatise on Dyspepsia, Chronic Diarrhea, "Liver Complaint," Biliousness, Constipation and Piles, published by the World's Dispensary Medical Association, Buffalo, N. Y., and mailed on receipt of six cents in one-cent stamps. This book also contains the photographs and testimony of many persons who have suffered from diseases of the digestive organs.

INDIGESTION; SEVERE PAIN IN STOMACH.

THOMAS FLETCHER, of *Chiles Store, Fairfax Co., Va.*, writes:

"I suffered the terrible tortures for two years with what your Dr. Pierce's Common Sense Medical Adviser described as 'Gastralgia' (pain in stomach). I employed one home doctor—took ½ dozen bottles of sarsaparilla with no benefit; then I took one half dozen bottles of a celery compound without any benefit; then eight bottles of iron tonic, yet I was no better; this was in 1893. I then took six bottles of Dr. Pierce's Golden Medical Discovery, which made a new man of me. I am now fifty-two years old, and for the past five years I have worked very hard on my farm. It is impossible for me to say too much for the 'Golden Medical Discovery.'"

Our bicycle column today contains interesting local news.

The cool weather last evening put a sort of damper on the ice cream business.

The Ohio democrats ought not to let Senator Brice lead them around by the nose, but they probably will.

The latest reports show that in the last battle of Bannockburn the Indians got the worst of it. The white men did all the killing, both of red man and deer.

Our present county commissioners are doing good work in the way of bridge building. The finishing touches on the Esmond bridge were made today. This is one of the best and most frequently traveled bridges in Allen county.

A justice of the peace of Perkinsville, Ind., married his first couple the other day, and this is the way he tied the nuptial knot: "Them as this court has joined together let no man put asunder, but let little children come unto them. So help me God."

There is no reason why postmasters should not be elected by the people instead of being appointed by the president. The people of each city and town know vastly more than the president does of the qualifications of those who are the candidates for postmaster.

Surely the democratic candidate for president in 1896 ought to be taken from the west. Ever since 1864 an eastern man has been the nominee of the party and it is about time to change the order of things and let a western man have a chance. The democracy of the west will insist on having the presidential candidate next year.

Nebraska is richer today than at this time last year by at least $39,000,000. At the most conservative estimate, three of its grain crops are worth that figure. Two of them have already been gathered and the third is practically beyond danger. It was only a few months ago that the people of Indiana were sending aid to the Nebraska sufferers.

Ex-Associate Justice Wm. Strong, of the United States supreme court, died at Lake Minnewaska, N. Y., yesterday. He was about eighty-seven years old and his death had long been expected. He was taken to Lake Minnewaska several weeks ago suffering from catarrhal affection of long standing. His system was greatly weakened by a fall down a flight of stairs at his home in Washington about two months ago. Justice Strong was appointed to the supreme bench by President Grant in 1870. He resigned from the supreme bench in 1880 on account of age, in the full maturity of his great powers, and until recently resided in Washington.

The people who attend the races which take place in this city next month will have the opportunity of seeing the fastest horses in the country, as negotiations are on foot for a great race between Robert J., Joe Patchen and John R. Gentry. It is safe to predict that if this race is arranged it will be the means of bringing to Fort Wayne the largest crowd of people that ever came together here to witness horse racing.

Capitalists met at Hicksville, Ohio, last Saturday, and perfected arrangements to construct an electric railroad to connect the towns of Bryan, Hicksville and Fort Wayne. A meeting of the members of the company will be held soon and application will be made for articles of incorporation and a charter. The movement is said to be backed heavily by eastern capitalists. As soon as arrangements can be perfected work will commence on the road and a speedy completion is promised.

Golden Harvests Both Ways.

This is to be a great year of harvests. The government report for August indicates a return of 2,500,000,000 bushels of corn, figures so stupendous in their aggregate as to stagger comprehension. That is more than twice the amount raised last year, and quite four hundred million bushels beyond the premium crop of any previous year. All precedents give way before the coming of the golden stream of 1895.

The banner harvest heretofore was in 1889, when 2,212,000,000 bushels were realized. The corn area of that year covered 78,319,000 acres, while this year it takes in 82,000,000 acres. Such comparisons indicate how much superior are the harvests of this season over any other.

The corn production for 1890 was valued at $754,433,451 and in 1892, when the yield was 2,060,154,000 bushels, the value was $842,146,630 at the rate of 36 cents a bushel. This year the estimate of 2,500,000,000 bushels is based on an average selling price of 30 cents a bushel, and in this single cereal alone the farmers have a return of $750,000,000, even at that low rate.

The farmers find in returning prosperity an opportunity to square accounts and adjust balances, and if the speculators can be set aside their bank deposits will soon be in a condition to meet any future demand, with a nest egg left over.

Embassador Eustis.

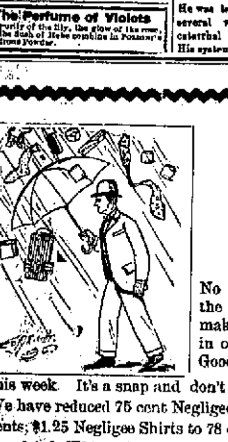

Every American, whether he be Democrat, Republican, Prohibitionist or Populist, will echo the warm praise the editor of The Review of Reviews bestows on the American embassador at Paris for his intense and enthusiastic Americanism. In particular The Review praises the Fourth of July banquet of the American chamber of commerce in Paris, where M. Hanotaux, the French minister of foreign affairs, sat on the right of Embassador Eustis and made a rousing speech, in which he complimented the United States for its "admirable practical sense and legitimate authority among the nations to restrain warfare and develop the benefits of peace."

To the hearty good understanding between Eustis and Hanotaux, in addition to the pronounced Americanism of Eustis, The Review traces already two beneficent results. One is that the republics of France and Brazil have agreed to arbitrate the question of the boundary line between Brazil and French Guiana. The other is the resolution of the French assembly asking the French cabinet to negotiate with the United States a permanent treaty of arbitration between the United States and France.

The electric long distance railway is coming just as fast as the railroad companies can change their steam engines for electric ones. And with the steam engine and its attendant nuisances half the discomforts of railroad travel will disappear. The electric road will be cheaper and faster. It will then be almost as pleasant to travel as to stay at home. There is no limit to the speed at which we can be whirled along, except just the power of matter to hang together under rapid motion. Already an electric manufacturing corporation has entered into partnership with a locomotive building company, and the two will hereafter make engines and motors for long distance railway equipment. They aim at nothing less than the development of a new electric railway system, and they will succeed. It is to be hoped the railroad companies will find some way to make over and utilize most of the engines and stock they have now on hand, so that they will not lose so much in making the change.

Mr. Rudolph Blankenberg of Philadelphia has recently returned from a trip to Japan, and the more he thinks of it the more he wonders why American tourists nearly all go to Europe when they can go to Japan in 18 days and see so much more that is worth seeing than they can in Europe. Every one who visits the country of the little brown men stays as long as he can and resolves to go back again as soon as he can, according to Mr. Blankenberg. The traveler goes over the Canadian Pacific to Vancouver, thence by steamer to Yokohama, which is reached in 12 days' sailing.

Let us have United Statesism and plenty of it among all our representatives abroad, from embassador to consul's fourth clerk. No aggressive jingoism or foolish boastfulness, but just a steady adherence to the belief that this republic is the best and greatest country that ever was, just a steady impressing of that fact on all other nations, with the assurance that every citizen of this republic at home or abroad will uphold her rights and prestige with his life if need be at any time. That is what we want. That is the kind of feeling that has enabled Japan to whip China, the kind of feeling that has enabled her to progress more in 40 years than other nations have done in 300 years.

A PLEASANT SUMMER SHOWER

No comparison to the way we will make things hum in our Furnishing Goods Department this week. It's a snap and don't happen often. We have reduced 75 cent Negligee Shirts to 43 cents; $1.25 Negligee Shirts to 78 cents; best Unlaundried White Shirt, Linen Bosom, and thoroughly reinforced, 39 cents; Linen Collars, 8 cents; Linen Cuffs, 15 cents. Best grades of 50 and 75 cent Underwear to 39 cents; just as good next year as this, but we must make room for heavy goods.

Visit our Children's Department and inspect the new things now being received in juvenile attire. Nobbiest styles and greatest values ever shown in Fort Wayne.

SPOKE AND SPROCKET.

What Is Going on in Local Wheeling Circles.

A Party of Ladies and Gentlemen Make a Notable Trip to Rome City—Other Notes.

A GLOW WORM.

Close by the margin tufts of grass,
Weighed down with dew and damp,
I found you as I chanced to pass,
Your trimmed and shining lamp.
Illuminating with greenish light
The dusty road in dusky night.

A velvet ring set round with gems
That softly shone below
The pale blue chicory's tall stems,
As if the path to show
To some belated beetle who
Went stumbling homeward in the dew.

A phosphorescent beacon there—
A solitary guide,
For insect ships that sail the air
On breaths of fragrant tide:
Or were you from some realm on high—
A star dropped from the summer sky?
—Frank Dempster Sherman.

Bicycle Notes.

There was no regular club run on Sunday.

The Triangle team will go to Wabash from Warsaw.

Leo Heller has just received his new racing suit, orange and black.

Miss Bessie Racine and George Waldschmidt rode to Auburn on Sunday.

C. C. Cherry left today for Montpelier on his wheel. He is talking of establishing an agency in that city.

A. C. Katt, the well known bicycle dealer, accompanied by his wife, is visiting Niagara Falls and the lakes.

Harry Stoneciphor punctured a tire at Avilla Sunday en route home from Rome City and had to take the train.

Will Gouty and Harry Pickard rode a tandem to Rome City Sunday. They report the roads in not very good condition.

I. G. Wolfrom, Al. Thurman, A. Thieme, Ben Woodworth and J. C. Siemon went to Lake Everett on their wheels Sunday.

George L. Byers puts his wheel to about as hard use as anyone in Fort Wayne. He does all his soliciting to neighboring towns "awheel."

The Indiana Machine works is busy getting out machinery for the manufacture of bicycle rims for the Old Fort Manufacturing Co., of Eaton.

Marion Black and Will Peltier, now camping at Rome City, are entered at the Warsaw races tomorrow and the the Wabash races on Thursday.

J. O. Goff lowered the city record at the mile track yesterday afternoon, riding two miles in remarkable good time, doing the last quarter in twenty-six seconds flat.

Bartlet, of "Wolf Lake," arrived yesterday evening ready to go with the Triangle team to Warsaw tomorrow. He has joined the Triangle club and will ride under their colors.

A good bicycle route to take for your vacation is from here to Toledo, boat to Detroit, then through Canada to Niagara Falls per wheel. Good roads, reasonable hotel rates and fine scenery are encountered on this route.

Luther Kell and Calvin Rieman, two well known young men, of this city, left this morning for a long trip on their wheels. Their route includes Muncie, Indianapolis, Cincinnati, Hamilton, Richmond, Portland and home. They will be gone ten or twelve days.

Messrs. Rodney and Frey Saylor, of St. Louis, Mo., are visiting Mr. George Saylor, of Lincoln avenue. They made the entire distance from St. Louis here on their bicycles and intend to return home the same way via Chicago. Both are fine musicians and entertaining young gentlemen.

Ora Goff, the well known Fort Wayne rider, is entered as follows: Warsaw, August 21; Wabash, August 22; Howard City, August 30; Huntington, September 2, and Elkhart on September 9 and 10. In fact, Ora is filling dates far and wide and proposes to win some of the prizes.

Bloomers are becoming quite popular with Fort Wayne lady riders and about thirty of them have donned the much abused garment. M. Frank & Co. have in their show window the figure of a lady riding a bike in bloomers, which attracts a great deal of attention. For a dummy figure it must be said the lady is quite good looking and, clad in bloomers and a jaunty blue sweater, looks positively charming.

Fort Wayne traveling men have put the bicycle to splendid use this summer, visiting cities within a radius of 100 miles of Fort Wayne. Wallace Caswell makes a large percentage of his trips on a bike and left yesterday for Avilla to see customers. Perry DeHaven, traveling for the Meyer Bros. drug house, makes long trips over the state drumming up business. Every day, almost, sees the wheel put to practical use. Horses and railway trains are too slow.

A pretty suburban trip is suggested as follows: Out on the Huntington road to school house No. 4 and to the first road beyond; thence west five miles to the first small church on the right hand side of the road; here turn to the right on the cross road and go one mile to the Illinois road and east to the city. This makes a pleasant run of about fourteen miles and the road is gravel all the way. The route was recently picked out by a party of ladies and gentlemen who gave a run in honor of Miss Maud Beck, of Elkhart. After the trip a delightful evening with lunch was served at the home of Miss Maud Graham.

J. W. Hayden, of the Randall agency, says: "The low handle bars are not nearly so much sought for as earlier in the season. A few young men who aspire to be cracker jacks on the race course stick to low handles, but most sensible riders are now after handle bars which will allow them to maintain an erect and healthful position." The Sentinel bicycle editor has never ceased to condemn the foolish posture of a large per cent. of riders. There is absolutely no excuse for riders humping themselves like dromedaries. If the people are to be benefitted by wheeling they must conform with laws of health. A stooping position contracts the chest and injures the body in many ways. The good effects of the wheel are thus completely destroyed.

About September 1 the Old Fort Manufacturing company, which some months ago was moved from this city to Eaton, Ind., will begin the manufacture of the La Mont bicycle rim. This new rim will be made from hickory elm and has a new joint, invented by Mr. La Mont, of the Old Fort works. The head of this manufacturing establishment are P. A. Randall and N. D. Doughman, of this city. Mr. Randall, speaking of the new venture, said this morning: "The factory will have a capacity of 1,000 pairs of rims per day, and one-half the output is already contracted for. Mr Doughman is now in the east pushing the rim, and A. L. Randall is in the west looking up our interests." "Bearings" for this month contains a half page advertisement of the new rim.

A party of Fort Wayne ladies and gentlemen made a notable run to Rome City Sunday—notable on account of the fact that nearly all the ladies came back on their wheels and accomplished a feat which has not often been performed by the fair sex of Fort Wayne who take to wheeling. The party was composed of John H. Payne and wife, Mr. and Mrs. Wheeler, A. L. Bond, Mr. Eastwood, Newhall Ransom and wife, and Miss Katie Schlatter. The party left Fort Wayne at 4:10 a. m., and made the run to Rome City in good shape. Mr. and Mrs. Wheeler and Mr. Bond came home on the train, but all the rest stayed by their wheels, arriving here about 9 o'clock in the evening. The ladies showed considerable pluck. The roads were not of the best, and the weather unfavorable.

LOCAL NEWS.

Personal Mention of People Who Are Well Known.

The Bluffton News says: "A. F. Schoch and wife, who have been guests of the family of Ferd Mosiman, returned to Fort Wayne at noon."

The Wabash Plain Dealer says: "Mrs. Minnie Fox, of Fort Wayne, arrived in the city this morning and is the guest of the family of her sister, Mrs. Chas. Rose."

The Kendallville Daily Sun says: "Misses Minnie Bisso and Laura Schuckman, of Fort Wayne, are guests of Miss Lulu Reber."

The Wabash Tribune says: "Mr. Daily, employed in the office of the Pennsylvania railroad company, at Fort Wayne, accompanied by his wife and child, were the guests of Mr. E. C. Miller over Sunday."

The Peru Journal says: "Clem Webber has given up his position at John S. Hale & Co.'s store and returned to Fort Wayne, where he will have charge of the carpet department in a large store."

The Decatur Democrat says: "Mrs. John Brooks, of Fort Wayne, after spending a few weeks with friends here returned home.—Dick Wiash, of Fort Wayne, is shaking hands with friends here today."

The *Warsaw Times* says: "Mr. and Mrs. C. A. Robbins, of Fort Wayne, came over to this city Saturday on a visit to their parents. Mrs. Robbins will remain for a few days, but C. A. returned last evening—Miss Ethel Griswold, who has been connected with the Winona ice cream parlors for several weeks past, returned to her home at Fort Wayne on Saturday evening."

Half Fare to Peru.

The Wabash will sell tickets to Peru August 26 to 31, inclusive, for one fare for the round trip. The occasion is the Street Fair and the sixty-ninth anniversary of Peru. 15-10t

Died at Pierceton.

Warsaw, Ind., Aug. 20.—Alexander Ridenbaugh, aged sixty, died while about his duties in the flouring mill at Pierceton. The deceased ran the engine and it was discovered that the machinery was running slower than usual. Mr. Ridenbaugh was found near the boiler dead. It is presumed that he died from heart disease.

A REMARKABLE CURE.

A CASE OF PILES OF EIGHTEEN YEARS STANDING.

Cured by the Pyramid Pile Cure.

There are plenty of pile cures which give relief and sometimes cure a mild case of piles, but there is only one which can be depended upon with certainty to cure obstinate long standing cases, and that is the Pyramid Pile Cure.

Endorsements and testimonials are received daily from men and women whose integrity and reliability are above question and in this connection a letter received from the Rev. Jas. H. Wesbrook, of Bowne, Mich., may be of interest to piles sufferers who have sought in vain for a cure. He says:

I have used the Pyramid Pile Cure and I know that it is all that is claimed for it. I had been troubled with piles more or less for about eighteen years and I had tried other remedies, but the piles grew worse until about ten months ago I used the Pyramid Pile Cure. It gave almost instant relief and I have been free from piles ever since. Rev. Jas. H. Wesbrook.

The remedy seems to act equally well in every form of piles, blind, bleeding, protruding or itching. It stops all pain almost immediately, allays irritation and removes constipation, and anyone who has suffered the annoyance and pain of a rectal trouble will appreciate the excellent results which invariably follow the first application of the Pyramid.

The Pyramid Pile Cure is prepared by the Pyramid Drug Co. of Albion, Mich., and for sale by druggists everywhere.

Two sizes, 50 Cents and $1. Sold by all druggists.

MAJOR EWING

Wins the Unfinished 2:19 Trot at Chicago.

Chicago, Aug. 20.—The attendance at the meeting of the Northwestern Breeders association was light yesterday. Considerable less than 1,000 people witnessed some really interesting races. But at that the management was far from being dissatisfied. Will J. Davis said the actual gate receipts were but $60 less than for the second day last year. Monday has always been the lightest day of the meeting in attendance and generally the weakest in program.

A close and bitter contest marked the conclusion of the 2:19 trot. Three heats had been finished when postponement became necessary Saturday night. Two of these were to the credit of Josephine, although Major Ewing had finished first each time and had been set back for running. Axtelloid, a three-year-old pitted against old campaigners, had a single heat when the race was renewed. Josephine was looked upon as the probable winner, but she failed to show in front in a single one of the four heats required to settle the race, one of which went to Axtelloid and three to Major Ewing.

It will be remembered that Major Ewing won just such a race as this at the breeder's meeting last year, a seven heat, postponed affair, which was won by simply outlasting the other starters, very much as in the present case. Major Ewing is a six year old bay horse, bred by Rockhill Brothers & Fleming, of Fort Wayne, Ind., and owned by C. J. Franks, Rockford, Ill., who drove him. He reduced his 1894 record of 2:18¼, made at Milwaukee, to 2:16¼, in the fifth heat of the race. The summaries:

2:19 Class, Trotting, Purse $1,000—Major Ewing, 2, 5, 3, 2, 1, 1, 1; Axtelloid, 5, 2, 1, 1, 4, 2, 2; Josephine, 1, 1, 2, 3, 5, 3, 3. Time, 2:13¾, 2:16¼, 2:16¼, 2:16¼, 2:16¼, 2:16¾, 2:20¼.

2:15 Class, Pacing, Purse, $3,000—Phenol, 1, 5, 1, 6, 1; Nellie M., 5, 1, 3, 1, 4; Choral, 3, 4, 2, 2, 2. Dempsey, Captain Wood, Red Lady, Toxie H., also started. Time, 2:11¼, 2:12¼, 2:14¼, 2:15, 2:18¼.

2:12 Class, Trotting. Purse $1,000—Miss Nelson, first; Robbie P., second; Baronet, third. Commodore Potter, Jim Hague, Alamito, also started. Time, 2:12¼, 2:14¼, 2:13¼.

Saratoga, Aug. 20.—First race, four and a half furlongs—Selling: Kilrona, first; Argentine, second; Sky Blue, third. Time, :56.

Second race, mile and a furlong—Selling: Lookout, first; Semper Lex, second; Navahoe, third. Time, 1:57.

Third race, mile handicap—Sir Excess, first; Wernberg, second; Pepper, third. Time, 1:42¼.

Fourth race, five furlongs—Selling: Runaway, first; Merry Monarch, second; Ingomar, third. Time, 1:03.

Fifth race, Okolona hurdle stakes, two miles, over eight hurdles—Kilkenny, first; Southeroon, second; Marcus, third. Time, 3:53

OUTLAWS AT WORK.

A Lot of Depraved Indians Commit Depredations.

They Attack a Family of Indians, Kill the Aged Mother and Force the Papooses to Accompany Them.

Wilcox, Ari., Aug. 20.—A troop of cavalry has been sent to Horn Basin county, in pursuit of a band of Indian outlaws who have been committing depredations in that region for several months. A squaw has arrived here, who says she was captured by the band who murdered her mother, and forced her and her papoose to accompany them. She finally escaped and rode night and day until she arrived here to report the matter to the authorities. Several other murders are said to have been committed by the outlaws.

CHINA'S ATTITUDE.

That Government Will Prevent Further Outrages to Foreigners.

Washington, Aug. 20.—Advices have been received by officials at the state and navy departments from Minister Denby and Admiral Carpenter which indicate that neither the diplomatic or the naval representative of the United States in China regards the situation resulting from the Ku Cheng riots as very serious or alarming, so far as American interests are concerned. It appears that the Chinese government and officials are very friendly toward the United States and American citizens, and regret disturbances which have tended to cause so much consternation. Officials in Washington are convinced that both Minister Denby and Admiral Carpenter feel assured that the Chinese government will prevent further outrages and also that the alarm felt by Americans in Shanghai, Foo Chow and Tien Tsin is greater than the situation warrants. The advices from the minister and admiral are reassuring and, it is stated, not in accord with the cables of Consul General Jernigan, at Shanghai, and the statements made by other American citizens indicating that further outrages were contemplated and that the lives of American citizens and their property was in great danger. Up to noon the state department had not been advised that Consul Hixon and the English consul had not been allowed to be present at the investigation of the Ku Cheng riots, though no surprise was manifested that such was the case, as in the times past like action had been taken. It is scarcely probable that a peremptory demand will be made that these officers be allowed to take part in the investigation.

TARIFF ASSOCIATION.

The Roads South of the Ohio Come to an Agreement.

New York, Aug. 20.—The members of the Southern States Tariff association assembled today in the parlors of the Waldorf hotel. There were about forty present. The meeting at once went into executive session. During the forenoon an agreement was reached as to the forms for the establishment and maintenance of rates. There are about forty sections in the agreement, which includes all of the roads south of Virginia and the Ohio river and east of the Mississippi. The secretary was instructed to draw up the agreement, after which it will be presented to the association for adoption.

KRIEGERBUNDE.

One Hundred and Forty-two Delegates at Columbus.

Columbus, Ohio, Aug. 20.—In the Kriegerbunde today, National President C. J. Walruff welcomed 142 delegates. Treasurer Julius Eggers, of Chicago, reported money on hand last year, $1,901; received during the year, $1,001; disbursed, $936; balance, $1,966. This question is up for debate: Shall members be compelled, as now, to accept life insurance and subscribe to a St. Louis paper, the organ of the bund.

Misses Viola and Katie Romy and Miss Cary Sauder are home from a trip through the country on their bicycles.

To Steam a Pudding.

Put it into tin pan or earthen dish, tie a cloth over top and set it into a steamer; cover the steamer closely; allow a little longer time than you do for boiling.

Scotch Pancakes.

One pint milk, 2 tablespoonfuls butter, 4 eggs, ¾ cupful flour, 1 teaspoonful Royal Baking Powder, pinch salt. Sift flour, salt and powder together, add milk, eggs and butter melted, mix into thin batter; have small round frying pan, with a little butter melted in it; pour in ½ cupful batter, place on hot fire to brown, then hold it up in front of fire, and the pancake will rise right up; spread each with marmalade or jelly; roll up, serve with sliced lemon and sugar.

Potato Pancakes.

Twelve large potatoes, 3 heaping tablespoonfuls flour, 1 teaspoonful Royal Baking Powder, ½ teaspoonful salt, 1 or 2 eggs, 2 teacupfuls boiling milk. The potatoes are peeled, washed and grated into a little cold water (which keeps them white), then strain off water and pour on boiling milk, stir in eggs, salt and flour mixed with the baking powder; if agreeable flavor with a little fine chopped onion, bake like any other pancakes, allowing a little more lard or butter. Serve with stewed or preserved fruit, especially with huckleberries.

'TWAS A BICYCLE PARADE.

1—"That certainly was a parade advertised in th' Daily Growdown. But I don't see it. Wonder where 'tis?"

2—Mr. Spinner—Look out!

3—Miss Hummer—Excuse me, sir!

4—Smith and Brown—Beg pardon, sir!

5—Mr. Overleigh—I hope I've caused you no inconvenience?

6—Waal, I'll be darn! Now I won't git ter see that parade after all.

RAILWAY RUMBLINGS.

Brakeman Bennett Meets With a Painful Accident.

A City of Sleeping Cars—The Nickel Plate's Excursion—Gossip of the Office and Shop.

G. W. Bennett was brought in on No. 9 last evening and is now under the care of Dr. George C. Stemen. He is a Pennsylvania brakeman, and while making a coupling at Forest, Ohio, yesterday afternoon, his right hand was caught between the couplingheads and crushed. The injury is severe, though it is hoped the unfortunate man will not be permanently crippled. Bennett was en route east on the first section of No. 74 when the accident happened.

CITY OF SLEEPING CARS.

One of the unique features of the Knights Templar conclave in Boston this month will be the city of sleeping cars, the like of which has probably never before been seen in this country, says the Washington Evening Post. It will be made a feature of the triennial, and some of the finest entertainments of visiting knights will be offered at the settlement, which will hold forth in glory for a week. The Boston and Maine railroad evolved the idea when it gave an official announcement that track room for 600 sleeping cars would be provided. Day after day the magnificent stretch of green dotted with fine old trees is giving way to lines of steel gridironed with sleepers, but the park is so large that even though the work goes rapidly on, it will be many weeks before it is completed, and the 25th of this month, when the first contingent of knights reaches Boston, will find plenty of pleasant room left for the accommodation of the "sleeper visitors." Probably only breakfast will be regularly served in this car city, but booths will be arranged so that if any one is hungry or if sick ones find it necessary to remain there all day, no one shall suffer for want of food. Nowhere about the city can a cooler place be found than in these grounds, and it is not unlikely that not a few of the visitors, especially ladies, will find it very desirable to wander about the shaded park rather than travel in the dusty and heated city. For that reason, if for no other, the committee of arrangements desires to make the place fully as attractive as the city breathing places. Some of the visiting commanderies will invite the friends whom they wish to entertain to that place, and evenings there will be a scene rivaling the most famous of Parisian boulevards.

BRIEF MENTION.

There will be two sections of Nickel Plate train No. 6 this evening.

Harry Kelker, Pennsylvania yard engineer, is off duty on account of sickness.

William Hulse, of the engineering department of the electric works, has returned from Baltimore, where he was engaged in the interest of the company for several months.

Machinist L. S. Quinn, of the Wabash shops, will spend Sunday in Champaign, Ill.

The Young Men's Chorus club, seventy in number, went to Rome City this morning.

Machinist Bob Taylor, who had been sick a week, reported for duty at the Bass works last night.

Machinist George Wilson, of the Bass works, went to Niagara Falls yesterday with the excursionists.

Nickel Plate Conductor Thomas Seaney has returned from Detroit and resumed his train duties.

The Illinois Central will this week open the bids and award the contract for fifty new locomotives.

Charles Sunderland has quit the Fort Wayne iron works and taken a position in the Bass machine shop.

C. G. Cooper, machinist, reported for duty at the Pittsburg shops this morning. He was sick several days.

Orders for machinery and supplies pour in upon the electric works faster than the workmen can build them.

Ed Wolf, Nickel Plate engineer, has a very sick boy and for some days has been unable to go out on his run.

The boiler department of the Wabash shops is busily engaged upon a new boiler for engine 470, which is being built.

The Wabash pay car will reach this city at 4 o'clock this afternoon. The Nickel Plate pay car will be in next Friday.

After two weeks' sickness, William Altekruse, a carpenter, has resumed his duties in Rhinesmith & Simonson's factory.

Nickel Plate Fireman M. O. Grabb was taken sick while in this city and was compelled to return to his home in Bellevue.

Foreman T. J. Rodabaugh, of the Pittsburg paint shop, has returned from Marshfield, Wis., where he attended the funeral of his sister-in-law.

The absentee list of the Pittsburg blacksmith shop shows that John Slater, Casper Lehmkuhler, J. D. White and Henry Dammeyer are sick.

The Pennsylvania will erect at Altoona a new steam plant which will be one of the most extensive and complete of any shops in the United States.

Mrs. J. V. Gruber, whose husband is a boilermaker in the Wabash shops, and her three children will go to Detroit in a few days to visit relatives.

Mrs. W. T. Marks and three children are at Van Wert visiting Mrs. Marks' sister, Mrs. Ellis. Mr. Marks is a machinist in the Pittsburg shops.

Machinist J. H. Hoy, who had the misfortune to lose the middle finger of his left hand in June, resumed his old position in the Pittsburg shops this morning.

Conductor Jim Wells and Brakeman J. A. Allen, of the Nickel Plate, are working again after a few days absence. Brakeman R. O. Reiser is now on the absentee list.

The electric signal plant which the Panhandle recently completed at Marion, Ind., is operating very satisfactorily, and accidents in those yards are now hardly possible.

Receiver Drake, of the Cincinnati, Jackson and Mackinaw, who has been seriously ill, is reported to be improving, and expects to be at his office again in ten days or a week.

Wabash engine 352 went to Peru this morning to haul gravel trains. Engine 10 went in the shops here for repairs this morning and engines 75, 67 and 348 were turned out.

Warsaw Times: "John Hubler, who is now in the railway mail service and resides at Fort Wayne, while on his way to Chicago, brought his little boy to this place this morning to remain a few days."

William Murphy, the house painter living on Force street, will leave the latter part of the week for Philadelphia to visit his grandparents, whom he has not seen for twenty-one years.

Machinist George H. Schack, of the Bass works, wife and son left this morning for Columbus, Ohio, the old home of Mr. Schack. They will be absent about two weeks.

Fred Gassert, a Pennsylvania brakeman, had his fingers caught between the door and the jam of a caboose yesterday and three of them were pinched so badly that Dr. George C. Stemen had to amputate the tips.

Nickel Plate engine 155 has taken her old position in the service on the fourth district, after general repairs, relieving engine 159. Ross Germain and Dennis McCarthy will have charge of 155 on alternate runs.

Work on the new elevator of the Cincinnati, Hamilton and Dayton at Toledo is progressing rapidly. The engine is in position, and in a few weeks the company will begin using it for unloading its cars promptly.

Mr. and Mrs. C. H. Bowman left for the west yesterday. They will be absent two weeks and will divide the time between Chicago, Springfield and St. Louis, where they have relatives. Mr. Bowman is a painter in the Pittsburg shops.

The absentee list in Master Car Builder J. A. Graham's office this morning contains the following new names: A. J. Shermeyer, G. Gaus, G. W. Lehman, G. Waldschmidt, F. Scheiferstein and B. Assis. All are off duty on account of sickness.

An immense crop of broom corn is in prospect and the line agents are already in the field soliciting the business, which, in good seasons, amounts to several thousand car loads, and there is always considerable competition to secure the traffic, which is hauled considerable distances and carried at good rates.

Rev. Henson, Mesdames Beitze and Keil and Mr. Eggeman and family left on No. 8, over the Pennsylvania, last night for Boston. The train was so crowded with passengers, mostly Knights Templar, that it was necessary to run it in two sections. The first section consisted of six Pullman cars and the second section was made up of coaches and baggage cars. No. 8 will again run in two sections tonight and possibly in three.

The Nickel Plate did a big business yesterday in the way of hauling passengers and excursionists. No. 4 train ran in three sections, carrying Niagara Falls excursionists, and No. 6 last night ran in two sections, the second train being loaded with Knights Templar from the west en route to Boston. The first two sections of No. 4 came from Chicago and hauled seven and ten cars respectively, the crews being Conductor Burgow, Engineer Studer and Fireman Hill on the first train, and Conductor Sauer, Engineer Hoenel and Fireman Hurlbut on the second. The third section was made up here and was manned by Conductor Porter, Engineer Bottger and Fireman Lee. It consisted of nine cars. Two cars were attached to the first train at Bellevue to accommodate the passengers from that place and another train was made up at Cleveland. All these trains were comfortably loaded.

In the excitement attending the Knights Templar excursions to Boston and the Nickel Plate's Niagara Falls excursion, a lull has occurred in the talk and planning for the Wabash's excursion to Toledo next Sunday, but our people have not lost interest in the matter, and are quietly shaping affairs with a view of "taking in" the excursion. A trip to Boston and Niagara Falls is a delightful affair, but it costs both time and money, and there are many people who can ill afford the luxury of such an excursion. Their health, however, demands some change from the monotony of home life, and the Toledo excursion, being an inexpensive and at the same time a pleasurable one, is just the thing for them. Like its predecessors, the excursion next Sunday will be a big event in which family, club and society parties will be a feature. The trains will leave at 7:15 a. m. and return at 11 p. m., giving the excursionists ten hours in Toledo.

Almond Cake.

One-half cupful butter, 2 cupfuls sugar, 4 eggs, ½ cupful almonds, blanched—by pouring water on them until skins easily slip off—and cut in fine shreds, ¼ teaspoonful extract bitter almonds, 1 pint flour, 1¼ teaspoonfuls Royal Baking Powder, 1 glass brandy, ½ cupful milk. Rub butter and sugar to smooth white cream; add eggs, 1 at a time, beating 3 or 4 minutes between each. Sift flour and powder together, add to butter, etc., with almonds, extract of bitter almonds, brandy and milk; mix into smooth, medium batter, bake carefully in rather hot oven 30 minutes in a fluted mould.

To Boil a Pudding in a Bag.

Dip bag (which should be made of thick cotton or linen) in hot water, and rub the inside with flour before putting in the pudding; when done dip the bag in cold water and the pudding will turn out easily. Always put a plate on bottom of kettle to keep pudding from burning.

The State Food Commission of Ohio has reported on thirty different brands of Baking Powder, and finds the Royal of highest efficiency and purer than any other sold in the State.

ROBY IS STILL ALIVE.

Petition Filed for a Rehearing of the Celebrated Case.

INDIANAPOLIS, Aug. 20.—A petition was filed in the supreme court last evening for a rehearing in the celebrated Roby case, wherein it was ruled that under the new law only three race meetings could be given on the same track yearly. Quoting from the opinion more freely, it was held "that the different racing associations conducting race meetings on the Roby track must not, either separately or together, give more meetings than allowed by the law passed last winter, which prohibited more than three meetings on any one track in any one year."

The petition avers that the statute is void and that the court misunderstood the governor's message, concerning which it says, that, judging from the opinion, "it leads one to accept as an historical fact that the governor, deeply impressed with the evils of gambling, brought the subject before the legislature in the most vivid terms to lead that body to adopt measures which would effectually eradicate gambling as it is done on horse racing." Still further, reading the whole message, it is apparent that it is an historical fact that the governor had two paramount objects in view: "The first being to consolidate and centralize all of the executive power of the statute in his own hands, and the second being to promote and legalize gambling on horse racing. The statute in question provides that a person may be twice put in jeopardy for the same offense, and is therefore void as to the part which would vest jurisdiction in the circuit court in this case."

Excursions to the East Over the Pennsylvania Lines.

The Governor's Horses.

(Indianapolis Sun.)

Governor Matthews has been adding horses and vehicles to his stable lately. His newest turnout is a trap with two seats. It has a dark red running gear, black bed and the seats are upholstered in gray. Bright Eye and Mohican, a bay and sorrel team reared on the governor's farm, whisk the trap about town. In the barn, too, is a carriage and a surrey, which Beechnut, a six-year-old, drags about. The governor has a saddler, which he bought in Kentucky, some weeks ago, and paid a round price for. He wears the title of Cronecracker, is a bay and is six years old. All the horses are from blooded families. Bright Eye is the speediest one of the lot and has had some track training.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The best baking powder made is, as shown by analysis, the "Royal."

Cyrus Edson

Com'r of Health, New-York City.

Soft Gingerbread.

One half cupful butter, 2 cupfuls molasses, 1 cupful sugar, 4 cupfuls flour, 1 cupful milk, 4 eggs, 1 teaspoonful Royal Baking Powder, ginger and cloves to taste.

To Make Crusts for Pies, Tarts and Puddings.

Make pastry with clean, cold hands. Dip your hands in cold water (after washing them in hot water) before you begin, or your crust will not be good. Crust may be made of butter or clarified drippings of lard; butter is better and costs but a trifle more. Look to the oven; if too cold it will make your crust heavy, if too hot it will burn it. Try it by baking a tiny piece of crust in it first. Make a little hole in top crust of meat pies to let out gas.
